Provost Maclaren-Robertson.

Public Affairs in Arbroath during 1925.

A RETROSPECT.

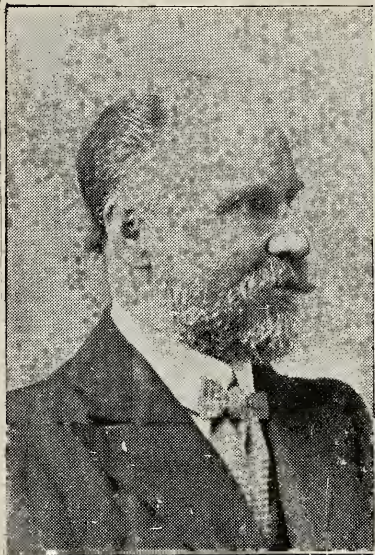

Though life in a town such as Arbroath may seem when viewed in the light of the more vivid experiences of larger cities or world wide travel to be somewhat devoid of incident it is usually found when a year ebbs to its close and a review of the past twelve months is taken that the list of local events is neither unimportant nor innumerable. When it comes to a review of 1925 in Arbroath, it has to be admitted that incidents of an outstanding kind are somewhat lacking. Industrially Arbroath still suffers from the post war depression, and until this condition is relieved either by the introduction of new industries or the resuscitation of those in existence there seems little hope of a better time commercially for the town. At the same time the key-note of the year's business in the governing bodies has not been a depressing one. On these public boards there are those whose faith in the revival of industry in the town does not waver, and whose efforts to hasten its return are both practical and hopeful.

Municipal Matters.

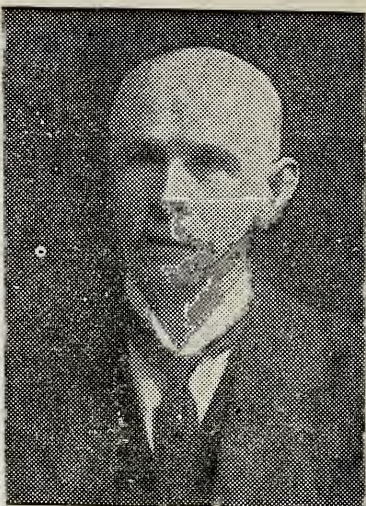

There is no burning question claiming the attention or cleaving the ranks of the Town Council. Under the guidance of Provost A. C. Anderson every individual member as well as every department has been mainly concerned in the attainment of a reduction in taxation which it is recognised is the first step towards the great essential, a revival in industrial concerns. A movement in the right direction was intimated in June when the municipal budget was issued, from which it appeared that by careful budgetting and agreement between the various spending departments it was possible to make a reduction of 2d in the rates for the ensuing year.

A Change of Provosts.

As the November elections approached Provost A. C. Anderson intimated owing to increase in business calls upon his time he could not again seek re-election. His retiral after 21 years' service on the Town Council, six of them as Chief Magistrate, was very generally regretted. Provost Anderson has occupied a unique position in Arbroath in that he was the son and the son-in-law of former Provosts of the Burgh, and assisted by his wife has very worthily upheld the honour of our ancient and royal Burgh.

**Mr J. Anckorn,
Chairman of Parish Council.**

Dean of Guild Clark.

Police Inspector Gunn.

Mr T. A. Hogg.

For a successor to Provost Anderson the choice of the Council fell unanimously upon ex-Bailie and Police-Judge and Treasurer A. MacLaren Robertson, a choice which was warmly approved by the community generally. Two changes in the personnel of the Town Council took place in November, both in the Third (Abbey and Guthrie Port) Ward. Dr W. J. Dewar and Mr James P. Reid took the place of Provost Anderson (retired), and Mr Joseph T. Matthews, who was unsuccessful at the poll. The other contest was in the First (High Street and Millgate) Ward, where the sitting members, Messrs A. Bruce and W. J. Anckorn were re-elected. Dean of Guild D. R. Macdonald was elected Treasurer, in succession to the Provost, and Mr John R. W. Clark became Dean of Guild in succession to Treasurer Macdonald.

Early in the year a special committee of members of the Town Council was set up for the purpose of pushing the claims of Arbroath with those firms, foreign or otherwise, on the outlook for suitable new sites or buildings in suitable areas for the manufacture of their goods. The imposition of the silk tax by the Chancellor of the Exchequer in his 1925 Budget resulted in a considerable demand for facilities for the manufacture of silk in this country, and the securing by Dunfermline of an important branch of this industry naturally gave other communities similarly situated a stimulus to share in this industrial boom. The Committee from Arbroath Town Council journeyed to London and had interviews with those likely to prove helpful in the quest for new industries for the town, with the result that when further opportunities arise Arbroath may hope to have a share in what is going.

An important item of municipal administration during the year has been the matter of upkeep of the streets. Under modern traffic conditions the upkeep of highways becomes increasingly expensive, and the question of maintenance a serious one for the town. How to maintain the streets with the maximum of efficiency and at the minimum of expense to rate-payers is the question which has been prominently before the Streets Committee during the year. In the interests of public safety the same Committee in the autumn instituted a system of marking dangerous turns and corners by white lines. The system proved very effective, but was also very expensive, and meantime has been discontinued pending a more lasting and satisfactory method of maintaining the lines.

The appointment of a new Burgh Surveyor in the spring, to fill the vacancy caused by the retiral of Mr D. H. Shaw on his appointment to a similar position at Saltcoats, had the effect of opening up a somewhat involved question for the Town Council. The choice of the Council fell upon Mr H. A. Hogg, formerly assistant in the Burgh Surveyor's department in Arbroath. Mr Hogg, not being qualified to fill the position of

Late Rev. A. Rust.

The Late Dr G. S. Mill.

Late Mr John Anderson.

Late Mr Farquhar, stationmaster.

Inspector of Weights and Measures, this office has been left vacant during the year, and there has been expressed from time to time within the Council and at the Ward meetings in November, a strong feeling that in the interests of the exchequer, and of the general public this position should be filled by a duly qualified person, other than the Burgh Surveyor, whose duties are quite onerous enough and numerous enough to require his whole time.

Gas Report.

A progressive and economically satisfactory branch of municipal administration is the gas undertaking, which continues to be run on sound business principles and with the maximum of benefit to the community. In January improvements were effected at the Gas Works at a cost of £1837, two new gas ovens being installed. The Gas Manager's annual report, presented to the Town Council in June showed that as the result of the year's working at the Gas Works there was a gross profit of £8,149. The gas sold during the year ended 15th May, 1925, amounted to 175,423,100 cubic feet (equal to 792,737 therms), an increase over previous year of 3,597,100 (33,266 therms), 12,233 tons of coal were used during that period, as compared with 11,875 tons for the previous year. The amount received for gas sold during the year to 15th May last was £29,656 14s 8d, which is a decrease of £362 2s 3d from the amount for the previous year. The price of gas for the current year remains unchanged, namely, 3/2.7 per 1000 cubic feet or 8.6d per therm to the ordinary consumers, and 3/6.3 per 1000 cubic feet or 9.4d per therm to coin meter consumers.

Parochial Affairs.

The triennial election of the Parish Council aroused more than usual interest in a body which, if not spectacular in its dealings has yet a great amount of important work devolving upon it. Not only as the rating authority but as the body which acts as a link between unemployed and the Government's schemes for relief have the Parish Council many and exacting duties. At the election meetings, at all of which Parish Council sitting members and fresh candidates were present and addressed the rate-payers, a careful survey of the work and prospects of the Parish Council was given, and several important points elucidated.

Mr H. V. Neill, chairman of the Parish Council, and Mr D. D. Calder, convener of the House Committee, having intimated their inability to stand for re-election rendered vacancies in these two important positions. As the result of the election four new members were returned—namely, Messrs D. Bruce, H. Corsar, Thos. Swankie, and D. Dowall.

At the first meeting of the newly constituted Board, Mr W. J. Anckorn who, from length of service, might claim to be the "father" of the Council, was elected to the position of chairman.

Educational.

An election of the Education Authority and School Management Committees took place in April. The lack of interest which has followed the enlarging of the area and the restriction of democratic control of educational affairs was obvious at the election when the number voting was not more than one-sixth of the electorate. In like manner the discussions at the Authority meetings are not calculated to arouse lively interest on the part of the ratepayers, though the opinion is very generally held that education is costing more than the country can well afford to pay for under present conditions. The following were elected from the Arbroath district of the area:—Dr Wm. Dewar; Rev. Jas. Hitchcock; James P. Reid; D. Littlejohn; Rev. Wm. McCurrach; Arthur King. Dr Dewar took the place of Mr J. S. Edwards.

At the first meeting of the reconstituted Authority the Rev. G Hitchcock, Arbroath, was re-elected chairman of the Authority.

The question of adopting that part of the Education Act relating to raising the school age was discussed at the July meeting. Strong opposition to the adoption of this part of the scheme with its increased burden of expenditure was expressed, and ultimately it was decided to make no move for its adoption.

The question of accommodation at the High School has again come prominently under review, to be as often deferred. The schemes brought forward have all been costly ones and the counsels of those who feel that the present is most inopportune for launching into big extension schemes have prevailed. In September a well-equipped laboratory was opened in the High School. The cost of the scheme was £2,300. In connection with the scheme a new position, that of engineer-caretaker had to be filled. Out of 111 applicants Thomas Hutchison, 72 St Vigeans Road, was appointed.

At the July meeting the Education rate for 1925-26 was fixed at 7.7d, half payable by occupiers and half by owners. This is an increase of 3d on last year's figure.

School Management Committee.

The powers of School Management Committees being restricted, little of note falls to be recorded of their deliberations. New members are Dr Dewar, W. Gordon, George Robertson, Miss Mary S. Young, Nolt Loan (Town Council representative), William Gordon (parents' representative). For the Sick.

The Infirmary and Convalescent Home have carried on their beneficent work with unabated zeal during the year, though the financial responsibilities incurred in the upkeep of these to their fullest capacity is always a grave concern to the directorate. The proposed erection of a Children's Ward has meantime been deferred though it is felt that this is a very necessary adjunct to the Infirmary. During the year a new boiler was installed which though somewhat costly in itself, is expected to prove a distinct economy in the saving of fuel effected.

Professor Patrick, Dundee, has been appointed Honorary Consulting Physician at the Infirmary, and in room of Dr Melville, resigned on receiving an important appointment in Perth, Dr Alex. Douglas was appointed resident doctor.

Closely allied to the Infirmary in the nature of its work is the Nursing Association, whose labours have been greatly extended during the year. At the annual meeting in December it was reported that a total of 6000 visits had been made during the year by the two nurses. Increased funds are also urgently required by this Association.
