YES or NO at the Referendum? A big question.

**Recognise these
two?**

These are the incompetents who put the UK in the financial straits in which it now finds itself.

How about these three?

All of the above are supporters/leading lights in the BETTER TOGETHER campaign. Ask yourself - would you buy a second hand car from any of them? So why listen to them?

**and what Scot could
forget HER?**

When we vote YES, Darling, Brown & Alexander will be out of a job. They know that, which is why they are arguing for the status quo. Selfish or what? And don't get confused. A YES vote is not a vote for the SNP.
