

DESIGN ORIGINS OF GEORGE WASHINGTON INAUGURAL
BUTTONS CIPHER SURFACE

ROBERT SCOT WAS TAUGHT BY HIS FATHER THE ART OF CLOCK MAKING. ROBERT APPLIED A CIPHER STYLE ART SURFACE HIS FATHER TAUGHT HIM, WHILE LEARNING CLOCK MAKING IN EDINBURGH. ROBERT INTRODUCED THIS METHOD DESIGN ON GW INAUGURAL BUTTONS & THE JACOBITE BUTTONS.

George Scot's of Cannongate's Cipher Art

Member as a Burgess of Edinburgh, George Scot was the illegitimate son of George Scot of Pitlochrie or better known as the "Comptroller of Customs of Greenock, Scotland. Georges mother was Bessie Malloch the daughter of the Burgess shipping merchant, Captain Robert Malloch listed as the first possible immigrant to South Carolina

with records found at the SC Archives. Malloch was shipping exiled Scottish passengers as indentured servants to work his 3000 plus acres of land. You can say that he is pretty much the first Scottish, major land proprietor in South Carolina's history. Robert Scot, apparently was named after his grandfather Robert. Below are images

of Jacobite buttons and a George Washington Inaugural button. Zoom in real close and look at the pierced stippled type of surface. Seen only on the clocks golden surface in comparison to the buttons seen below. Robert Scot, learned this ancient art of alchemy that was passed down in the family for hundreds of years, Magi art!

Earliest Makers Mark of Robert Scot-Found on his Fathers Clock That Scot Helped Build or Worked On Years After It Was Completed!

The Scot family are origin to the Scotstarvet family, who originate from the Scott-Buccleuch line. The 2nd "T" in the name was dropped to acknowledge the Scotstarvet hereditary titles as "Directors of Chancery" in Scotland for generations.

[Michael Scott: the Scottish wizard - Philip Coppens.com](#)

When I said a family of Magi, I was not kidding you! Merlin the wizard legend is based off Scot's ancient family member Michael Scot the Wizards history. Read Coppens paper, Scott, "the Wizard of the North", is credited variously as Scotland's first scientist, alchemist, sorcerer and astronomer. Starting with Scots gr-gr-great grandfather Sir John was involved in higher learning and teaching. Known for having the most important maps in Scottish history made. Scot's great grandfather George who was exiled to America. Published in 1685 at Edinburgh "The Model of the Government of the Province of East New Jersey, in America".

Roberts grandfathers was only identified when his original copy of his last will was found, written in the old Scot's handwriting. Found in the Scottish Archives by the Cannongate Scot's lodge historian with my information to aid him.

Until recent, professors in Scotland could never figure out the identity of George Scott the publisher of "A New and Exact Map of the River Clyde Dedicated to John, [2nd] Duke of Argyll [1678-1743] and published by George Scott". My research is credited for rediscovering his identity. Richard Cooper engraved that map and Sir Robert Strange the royal engraver to the Bonnie Prince Charlie, was Coopers student. Robert Scot was an apprentice to his father George in

clock making and the apprentice to Robert Strange.

Robert's father George had a ghost identity as well! The Historian of the artists Masonic Lodge or the Scot's Lodge of Cannongate, Edinburgh, was founded by Roberts father George. The Lodge historians could never prove Georges identity, until a few years ago. After I contacted the Lodge historian and provided information to aid in finding Georges identity, their founding Master of their lodge in 1745. Chartered two days before the launch of the 1745 War in the effort to restore the Bonnie Prince to the thrown.

Scot's father was secret because he was in the direct circle that plotted this war to put the Bonnie back on the thrown. The war was launched from Cannongate and most likely planned in his own Lodge. This is why the family was so secret, they were ardent Jacobites, who lost the "45" and influenced major history with the American Revolution and were part of the direct families who started the French Revolution, who provided the money behind it!

Example, Roberts grandfather George set up his first son John, with a ship building company. Not any company, but the biggest the world ever seen that existed for 300 years and built over 32 thousand ships, not boats! They would make Donald Trump's business empire look like "Trump Change" today in comparison. So when I tell you, Robert Scot was in America, controlling the United States infrastructure, you better believe it and note that the early preserved records of the United States are mostly a cover up history to fool the common American. Regards to who was really running the United States, economic infrastructure.

THE GANG

SCOT'S EARLIEST KNOWN MAKERS MARKS "RST"

SCOT'S "RST" MARK

SCOTS "RST" MARK

SCOT'S "RST" MARK

GEORGE SCOT'S GRANDFATHER CLOCK

PICTURED ABOVE IS THE FULL SIZE IMAGE OF GEORGES LONGCASE OR GRANDFATHER CLOCK. ONE OF TWO KNOWN TO EXIST. BOTH ARE DISPLAYED AT THE MUSEUM OF EDINBURGH. YOU CAN SEE THE 2ND SET OF ROBERT SCOT'S PAINTED "RST" MARK, WHILE AN APPRENTICE TO HIS FATHER GEORGE. AMERICAN NUSMISMATISTS HAVE ROBERT DOCUMENTED AS A WATCH MAKER. NO EXAMPLES OF WATCHS HAVE EVER BEEN SEEN AND NONE ARE EVEN KNOWN TO EXIST.

NOW FOR THE FIRST TIME, GEORGE WASHINGTON BUTTONS HAVE AN ORIGIN OF WHERE THE DESIGN OF THE CYPHER, STIPPLED STYLE SURFACE ORIGINATES BY THE IMAGES AND COMPARISONS THAT TOOK ME YEARS TO FIGURE ON MY OWN. NOW, THIS HISTORICAL EVIDENCE HAS NOW HISTORICALLY INCREASED THE VALUE OF THESE BUTTONS 10 FOLD! YESTERDAY MY NEW PAPER ON THE "GW INAUGURAL BUTTON FALLACY AND MISCONCEPTIONS" HAS IDENTIFIED THAT THE EAGLE GW BUTTONS ARE NOT GW INAUGURAL BUTTONS. AROUND 1200 GW INAUGURAL BUTTONS ARE BELIEVED TO EXIST IN THE SERIES. HOW MANY OF HUNDREDS ARE NOW PROVEN JACOBITE, BONNIE PRINCE CHARLIE BUTTONS, NOW? WHATS THE REAL COUNT NUMBER OF GEORGE WASHINGTON AUTHENTIC INAUGURAL BUTTONS SURVIVING, 500-600 IN NUMBER? NOW THE EXPERTS AT THE AUCTION HOUSES ARE FORCED TO GRADE THE SURVIVORS JUST LIKE A NUSMISMATIC COIN! THE METHOD OF MY MAKERS MARK AND HIDDEN SYMBOLS IDENTIFICATION HAS TO BE PART OF THE GRADING OF THESE SURVIVING BUTTONS. THESE VALUES ABSOLUTLY APPLY TO THE MOST DAMAGED DUG UP BUTTONS THAT HAVE NOW JUST SKYROCKETED IN HISTORICAL VALUE AND IN DOLLAR VALUE.

THIS NEEDS TO BE MADE VERY CLEAR, GARY GIANOTTI INTRODUCED THIS METHOD OF IDENTIFICATION TO THE ISABELLA GW BUTTON SITE. THIS ALSO INCLUDES THAT I AM THE PERSON THAT INTRODUCED METHOD TO THE 1792 GEORGE WASHINGTON INDIAN PEACE MEDALS WITH A PROJECT UNDER WAY THAT IS NOT READY FOR THE PUBLIC TO SEE. WHAT I WILL SAY IS THAT DALE HAWLEY WAS THE FIRST TO FIND THE TRUE LETTER INITIAL MAKERS MARK OF JOSEPH WRIGHT WITH ONE MEDAL. GARY GIANOTTI IS THE FIRST TO EVER INTRODUCE THIS METHOD OF IDENTIFICATION TO THE UNITED STATES WITH RELICS. HAVING OVER 10 YEARS IN THE STUDY, WHO IS THE FIRST PERSON TO INTRODUCE THIS METHOD PUBLICLY FIVE YEARS AGO. WHICH IS DOCUMENTED WITH MY PUBLIC SERVICE WORK ON THE 1783 GREAT SEAL OF THE UNITED STATES RESEARCH!
