Due to the age of the illustrations in this book they are all considered to be out of copyright, however where the photographer, artist or source of the item is known it has been stated directly below it. For any stated as 'Unknown' I would be very happy for you to get in touch if you know the artist or photographer.

This book has been published on an entirely non-profit basis and made available to all free of charge as a pdf. The aim of the book is to make the history of vessels built by Thomas Wright available to a wider audience. There is much available on the internet, especially on www.aberdeenships.com but unfortunately what's currently available is scattered and doesn't give the full picture.

If you have any comments regarding this book, or any further information, especially photographs or paintings of vessels where I have none. It would be historically good to show at least one for each vessel, and since this is an electronic edition it will be possible to update and include any new information.

I can be contacted at bardofthebroch@yahoo.com

If printing this book, it is best printed as an A5 booklet.

Introduction.

The aim of this book is to highlight and record the vessels built by **Thomas Wright**, Shipbuilder, Inches, Aberdeen, and make this part of Aberdeen's history available to a wider audience.

My research has concluded that timber merchant, shipowner, and shipbuilder **Thomas Wright** only built four vessels, all to his own account, some built speculatively for sale, however for the period these were of a reasonable tonnage. The biggest vessel they built was the 3-masted, wooden-hulled ship '**George Washington**' built in 1857 which was 414 tons. If we compare this to the '**Friar Tuck**' (662 tons) built by **Alexander Hall & Co.**, Footdee and the '**Damascus**' (964 tons) built by **Walter Hood & Co.** at the same date she was not as big as the vessels being built by other prominent Aberdeen shipbuilders based in Footdee.

Thomas Wright and his brother Joseph were established wood merchants, I found **Thomas Wright**, timber merchant in the Aberdeen Post Office Directory from 1848 with an office at No. 36 Union Street. Circa 1852, **Thomas Wright** bought the schooner the '**Sisters**' (91 tons), she was built in 1835, so was quite an old vessel, but by 1853 he had sold her and ordered the much bigger brig '**Earl of Carlisle**' (192 tons) which was built brand new by **Brands and Scorgie**, Inches, Aberdeen, and launched in July 1853.

As far as I can tell **Thomas Wright's** shipyard was the westernmost yard at the Inches (South side of the Upper Dock), this yard was later leased from Aberdeen Harbour Board by Aberdeen shipbuilder **David Burns**. **David Burns** oversaw the building of the wooden-hulled, 3-masted ship '**George Canning**' (411 tons) for **Thomas Wright** in 1856, so he probably knew the yard and the workforce well.

Timeline

1848: In the Aberdeen Post Office Directory **Thomas Wright** is listed as a wood merchant at No. 36 Union Street, Aberdeen.

1852 / 1856: In the Aberdeen Post Office Directory the home address of **Thomas Wright** is listed as Marywell Bank, house at the south side / foot of Marywell Street, and he is listed as a wood merchant, Inches.

1853 / 1854: In the Aberdeen Post Office Directory **Thomas Wright** is listed as the owner of the schooner '**Sisters**' (91 tons) built in 1835, master Johnson. (Home address / yard same as 1852-53).

1854, 6th December: The Aberdeen Press and Journal reported that **Thomas Wright**, timber merchant donated £5 to the PATRIOTIC FUND for the relief of Widows and Orphans of Soldiers, Sailors and Marines, who fell in the present War. £5 in 1854 = approx. £590 in 2021.

1855, 3rd May: He launched his first vessel, the wooden-hulled, three-masted barque '**Admiral Collingwood**' (326 tons) built to his own account.

1856 / 1857: The Aberdeen Post Office Directory gives three shipbuilders at the Inches (South side of the Upper Dock) at this date, as follows:

- Alexander Brands.
- George Milne & Co.
- Thomas Wright.

It also gave the Footdee shipbuilders as follows:

- Alexander Duthie & Co.
- Alexander Hall & Sons, York Street.
- Walter Hood & Co., York Street.

See Appendix A for more details of shipbuilders at the Inches at this period.

1857, 24th August: The Aberdeen Press and Journal published the following notice: "*On the 1st day of May, 1857, the Partnership of Messrs **JOSEPH & THOMAS WRIGHT**, Wood Merchants in Aberdeen, was DISSOLVED by mutual consent (signed) **JOSEPH WRIGHT, THOMAS WRIGHT**. **GEORGE CHEYNE**, Coal Broker in Aberdeen, Witness. **JOHN WALTON**, Accountant, Aberdeen, Witness."*

1858, 24th March: The Aberdeen Press and Journal published the following advertisement: *“SHIPBUILDING or WOODYARD to LET at South-west End of Victoria Dock, with Work Shops and Offices thereon. Apply to THOMAS WRIGHT”*.

1857 / 1858: In the Aberdeen Post Office Directory the home address of Joseph Wright, was listed as No. 50 Skene Street. **Thomas Wright** was Marywell Bank and the wood merchants’ business as J. & T. Wright, Inches.

1858 / 1859: In the Aberdeen Post Office Directory the home address of Joseph Wright, was listed as No. 3 Dee Place. Joseph is listed as a wood merchant on his own account after the split with his brother 1st May 1857. The home address of **Thomas Wright** is still Marywell Bank.

1859, 2nd March: The Aberdeen Press and Journal published an advert for leases at Aberdeen Harbour as follows:

“II. That piece of ground lying on the North side of the said road (Blaikies Quay), lately made out at the upper part of the Inches, and lying to the South of the line of the Quay Wall, in continuation of Market Street, measuring 150 feet or thereby in front along said road, and extending Northward therefrom 70 feet or thereby, as presently occupied by Mr Thomas Wright. Upset Yearly Rent, £15 Sterling.”

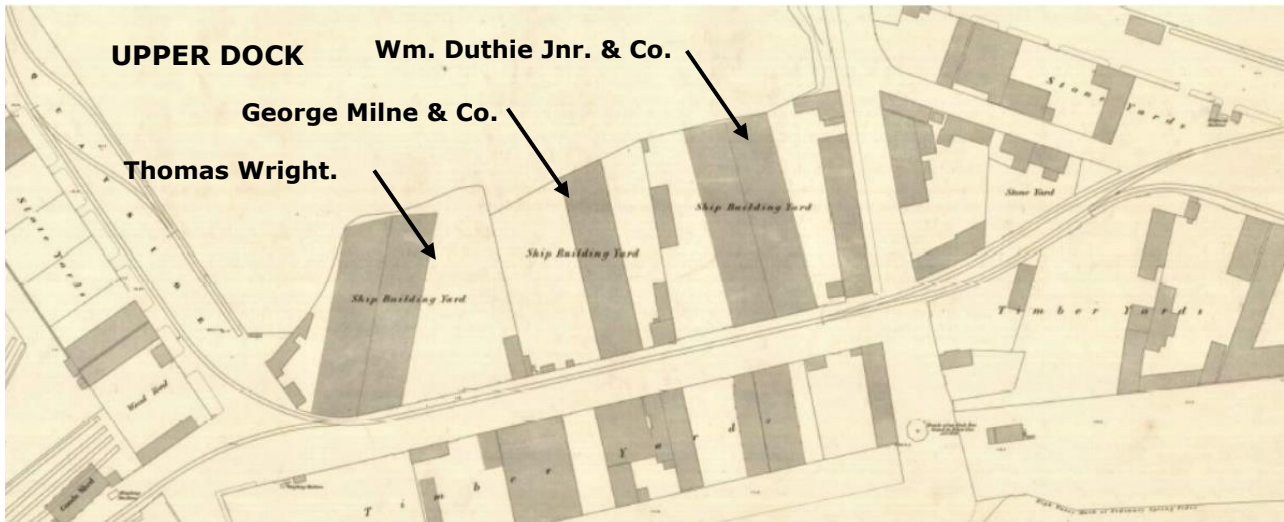

(Equivalent to approx. £2,000 in 2021, seems rather cheap).

c1859: The lease of the former shipyard of **Thomas Wright** was taken by **David Burns**, however it seems **David Burns** had already been building vessels in **Wright’s** yard from c1857.

1860, 29th October: **Mr Thomas Wright**, Ship-owner, Aberdeen died at London.

1861, 1st November: A notice in the Aberdeen Press and Journal, 4th December 1861 advised that Joseph Wright, timber merchant had taken his son Joseph Wright Junior into partnership and in future the firm will be known as Joseph Wright & Son. 16th March 1867, the partnership was dissolved, and the firm was renamed Joseph Wright Junior & Co. Joseph Wright Junior was declared bankrupt in January 1868.

1872, 5th February: Joseph Wright Senior aged 72-years died at Blackdog, Belhelvie.

Vessels Built by Thomas Wright.

This list was prepared from scratch, as I haven't seen a builders list, I only found four vessels built by **Thomas Wright**, Inches, Aberdeen, all built speculatively to his own account. (If you know of any others please get in touch).

Admiral Collingwood (1855).

Thomas Wright's first vessel, she was named after Admiral Lord Cuthbert Collingwood (1748 to 1810). He fought at the Battle of Trafalgar in 1805 as Nelson's second in command. He went to sea aged only 13-years. She was built as a general cargo carrier, and is known to have traded at Aberdeen, Liverpool, Hartlepool, London, Harburg (Germany), Mauritius, Cape of Good Hope, and Algoa Bay (South Africa).

George Canning (1856).

She was named after George Canning FRS (1770 to 1827). He occupied various senior cabinet positions under several Tory prime ministers, including Secretary of State for Foreign Affairs and Chancellor of the Exchequer, finally becoming Prime Minister for the last 118 days of his life. He was Prime Minister of the United Kingdom from April 1827 to his death in August 1827.

*George Canning
(1770 to 1829).*

She was built to carry general cargo and is known to have traded at Aberdeen, Liverpool, London, Falmouth, Bremen (Germany) Archangel (Russia), Gijon (Spain), Calloa (Peru), Philadelphia (USA), Adelaide and Geelong (Australia), Montevideo (Uruguay), and Port Chalmers, Nelson and Wellington (New Zealand).

1856, 25th June: The Aberdeen Journal reported as follows: *"...On Thursday there was Launched from building yard of **Mr. Thomas Wright**, a clipper-built ship, '**GEORGE CANNING**', 411 tons new and 441 tons old measurement. Combining the ordinary oak frames and diagonal larch planking with unusually strong fastenings, altogether constituting great strength. This Ship was named by Mrs Captain Duncan Reid and is intended for Cape of Good Hope trade. She was built under superintendence of **Mr. David Burns**, to whom her lines and workmanship do great credit."* It's interesting that **David Burns** is mentioned here, as he took over the shipyard lease from **Thomas Wright** in 1858.

George Canning (1856). (Continued).

Advertisement in the Aberdeen Press and Journal 27th August 1856.

1857, 17th June: The Daily News, reported that she sailed from Adelaide Australia for London on 16th March with 5,286 bags of copper ore consigned to Strathalbyn Mining and Smelting Co.
