P R E F A C E.

THAT the affairs of one's neighbours are of no little interest to men of every class of life has perhaps never been more strongly proved than by the production of and great demand for "The Modern Domesday Book." Not only have Mr. Frederick Purdy and others analyzed it, Mr. Lyulph Stanley abused it, Mr. John Bright moved its digestion in the House, and the "Spectator" and other London journals scathingly criticised it, but the immense herd of country newspapers have actually reproduced it, as far as their own neighbourhoods are concerned, in their columns, much, probably, to the satisfaction of the bulk of readers, to whom twenty-six shillings (the price of the English volumes alone) is prohibitory. As an example of this, I may mention, that having a small party in my house during one of those dubious weeks which come in 'twixt the close of the hunting and the beginning of the London season, I was saved all Marthean cares as to the amusement of my guests simply by leaving about on the table the two huge volumes of "The Modern Domesday," over which I found bowed with the utmost constancy two or more heads.

I heard from one of my guests that the copy of the work at the "Ultratorium" was reduced to rags and tatters within a fortnight of its arrival—a lesson which was not

wasted on the library committee of my own club, who caused the book to be so bound as to defy anything short of a twelve-year-old school-boy.

Mr. Lyulph Stanley finds great fault with the carelessness of some of the entries in "Domesday,"—faults which, it must be admitted, are most perplexing to the compiler—faults in spelling, faults in description of residence, gross faults as to the initialling of names, not infrequent double entries of the same man, first as John, then as J., and in the same fashion through the alphabet; and not least, the almost invariable mixing up of a parson's glebe land, or possession in his public capacity of parish priest, with his private acreage, as what Sidney Smith dubbed a "squarson." One huge stumbling-block in the way of the work's perfection is the large number of double-barrelled (if I may use the term) names in England, such as Hart-Dyke, Leveson-Gower, and Vernon-Harcourt, to say nought of such perfect "mitrailleuses" as Rouse-Boughton-Knight and Butler-Clarke-Southwell-Wandesforde. This necessitates a search for acres under every one of the bracketed family names.

In Wales the difficulty lies in a very different direction, *i.e.*, in the almost desperate simplicity of names; in fact, it may be taken for granted that two-thirds of Wales is owned by the families of Jones, Davies, Evans, and Williams.

Would that for the wretched compiler's sake there had been a few more "Sir Watkins" in existence!

In a compilation of the sort I have attempted, mistakes must occur, but I have tried to minimize them by noting the most glaring and oft-recurring errors in the return, in

order to be on guard against them. I may class these errors as follows:—

I. *Mixture of Vowels.*—Vowels I find in the return mean next to nothing. For instance, Sir H. Selwin-Ibbetson is returned as himself properly spelt, and in the same county as “Sir H. Ebbetson”; in the far north, the name of Lindow is spelt with the most perfect impartiality “Lindow,” “Lindon,” and “London”; in a Midland county, my good friend John Levett and his kinsfolk are put in as “Levitt,” “Lovett,” and “Lovatt,” and unless a man knew or found out that no Lovett was ever squire of Wichnor and guardian of the hereditary fitch, he would grievously fail in judging the Levett acreage aright. In Derbyshire, again, the considerable family of Turbutt of Ogston is robbed of its entire patrimony (except a beggarly four acres), which is given to the mythical house of “Tinbutt,” while to add further insult to the first injury, some property in Notts is said to appertain to one Tarbutt of “Hogstar”—a heavenly body till now unknown.

In Somerset one “Troate” usurps a goodly share of Mr. Troyte’s domains. I might multiply these cases a hundredfold.

II. *Variation of Consonants.*—Even consonants, though not so bad as vowels, are muddled in a most arbitrary fashion; one main object of the rural authority who furnished the materials for “Domesday” being to spell his local landowners phonetically, the family possessions of the house of “Fazakerley” are distributed among the “Fazackerleys,” “Fizackleas,” “Phizackarleys,” and “Phizackleas.”

The half-educated Briton, especially the South Saxon,

is fond of adding to the length, if not to the dignity of a name, by adding a final "s"; the London mob invariably cheered the late champion of popular rights as "Odgers." This final "s" is in the "Domesday Book" very frequently added, so much so that in a similar compilation to the present for England alone, somewhat hastily done, I altogether failed to recognize as one and the same owner the head of the Bucks and Essex family of "Tower," who figures under the fourfold spellings of "Tower," "Towers," "Trower," and "Trowers." It is possible he may even be entered for a few acres as "Trousers," on some page which I have overlooked.

Mr. Pochin would probably hardly care to own an estate were the ownership coupled with the condition that he should change his name to "Pochim," yet so "Domesday" has it. Mr. Ellis Nanney perhaps thinks the return a most incorrect piece of work, and his estate lamentably understated, in which case I would advise him to look for his missing lands under "Vannev." Col. Gunter, of short-horn celebrity, might have been acquitted of any special proclivity for swine; he nevertheless figures as "Col. Grunter."

A small estate in Sussex is returned as belonging to one "Burdffmak"; what this appalling name is meant for quite outreaches all conjecture.

III. *Titles*.—Titles are a great trial. Englishmen are said to "love a lord," but that is hardly an excuse for giving two steps in the peerage, as is done in Lord Stafford's case, and some others, or for making the widows of knights into Lady Janes, Lady Bettys, and Lady Marys. I may mention that a Viscount seems to be a hopeless

grievance to the compilers, who get out of the difficulty by sometimes using the simple letter V, and in other cases Vincent; Lord Valentia, for instance, being entered as "V. Valentia."

In countrified parts one often hears of ladies who act the part of Lady Bountiful being described as "Ladies as is Ladies," but I was hardly prepared to find that this description had gained a footing in the parochial rate books and the parliamentary returns; so it is, however, and I could mention several cases where plain "Mrs. A." is returned as "Lady A." A more excusable, but at the same time puzzling vagary, is to enter the numerous class of "Hon. Mesdames" as "Ladies." The letter V is not a prolific one, but two such cases occur in it, "Hon. Mrs. Vernon" and "Hon. Mrs. Vansittart" being entered as "Lady Vernon" and "Lady Vansittart." Titles, however, are no obstacle when, as seems to have been the case in some counties north of the Humber, the parochial authorities were of the Quaker persuasion, for there I find a man's title sometimes denied him *in toto*. Had the Prince been a Northern landowner, they would have possibly entered him as "Albert E. Guelph." Lord Houghton is re-converted in one county into a commoner, not as Monckton-Milnes, but as "Aaron" Houghton.

IV. *Addresses*.—The general orders of Government were that the rate collectors should give the addresses of the landowner, and not the name of the farm or farms he owned, or the name of the parish in which they lay. This has been done fairly well in some counties, notably the south-eastern, where, if they do not know an owner's address, they either leave it blank, with the name of the

place in which the acreage is situate in brackets, or simply insert the address of the firm of lawyers who collect the rents, at No. —, Lincoln's Inn.

In some parts of England the confusion is horrible; for instance, an owner, say Mr. J. T. P. Smith-Green, of Granby Hall, will be described as J. Smith, Little Pedlington—perhaps he only owns an outlying farm there; as J. T. Green Smith, of Granby Hall, his real abode; as John Thomas Plantagenet SMITH-GREEN, of 200, Portland Place, W.; as J. T. P. GREEN-SMITH, of the Fogies' Club, S.W.—the only error in this case being the putting the Green in front of the Smith, and giving his address at his club on the all-sufficient ground that he once dated a letter enclosing a cheque for rates from it; as J. G. Smith, of Aix-les-Bains, for same reason; or as J. T. P. Smythe-Green, of Boulevard, Paris—"Boulevard," "Paris," being all the *locus standi* given to one owner whose popularity is undoubted, and whose acres are very broad. I have, therefore, had no scruple, where internal evidence is forthcoming in any case, in crediting a man with acres, whether his address be parochial, real country seat, London house, club, such-and-such a regiment, Lincoln's Inn, or any English or foreign watering-place where he may be making a temporary sojourn for economy, health, or any other cause.

The Scotch and Irish returns, as regards workmanship, compare most favourably with the English—the Scotch returns being, however, undoubtedly the best. It is curious to note, that while in England and Scotland a man is the unfortunate inmate of an asylum, the compilers discreetly conceal the fact by leaving the address blank; in Ireland, contrariwise, the name of the asylum is always given.

Even Scottish counties, like English ones, vary in degrees of goodness and badness; Kirkcudbrightshire being *facile princeps* in excellence, which is strange, as at low water it almost touches Cumberland, a badly done county, and next neighbour to Lancashire, which is out-and-out the worst done of all counties in England.

V. *Initials*.—These are not always to be trusted. F and T being particular sinners, so much so that I have in this work utterly disregarded the distinction between them, where the addresses are the same, or even in the same neighbourhood.

The following case, affecting two estates not far from my own, is a fair example :—

White, F. G. G., Wethersfield, acres 1,561, val. 2,491*l*.

White, T. G. G., Wethersfield, „ 3,576 „ 4,303*l*.

The facts of the case simply these :—

That Mr. White owned estates in two parishes or more. That in each case his address was correctly given. That one returning authority could not have written an over plain T, but that he gave T as the initial not a soul who knows Essex and remembers poor “Tom” White would for a moment doubt. These entries, I may say, occur, not side by side as I have put them, but on different sheets. The initial of a father’s name is frequently given, while he may have been dead and his acres in the son’s possession, say ten years.

Ten years, however, does not suffice for the eminently conservative county of Somerset, where in one case they “keep the memory of the dead man green” for eighteen years in the rate books, not troubling themselves to substitute the son’s name for that of the father.

VI. *Miscellaneous Blunders.*—Such as the mixture of names and addresses; the giving the name of the tenant as owner instead of that of the freeholder; the too liberal use of trusteeships as substitutes for ownerships personal; and lastly the “clerical error” pure and simple. As an instance of the first form of blunder I would mention the case of the late Col. Peers Williams, whose Anglesea estate is given to Col. T. Williams, of “Peers,” “Menai Bridge.” A curious attempt at the same thing is made in the case of the late Sir Digby Neave, of Dagenham Park, Essex, where the compiler of “Domesday” has tried to fuse the name and address Digby and Dagenham into a harmonious whole—result, “Neaves, Sir D., Bart., Digman Park, Sussex.”

A fair example of the second class of error is that of Mr. Peckover, of Wisbeach, who is returned as owner of only about 2,000 acres in various counties—his estates amounting to well over 3,000 acres, partly entered in his tenants’ names; this sort of error is probably very common in England; while in Ireland it is, excepting faulty addresses, almost the only grievous stumbling-block.

Of the third class Sir Walter Barttelot’s is noteworthy, Sir Walter being owner of between 3,000 and 4,000 acres, while “Domesday” only allows him something short of 2,400; the balance being entered as the property of various trustees. The last class of blunders is the most hopeless. A mysterious “Mr. Jos. Rewes,” in my county, troubled me not a little, being entered as an owner of some 6,000*l.* a-year in land. ~~Thinking it odd I had never heard of him socially,~~ politically, in the hunting field, or ~~even~~ on a subscription list, I wrote to friends in the close neighbourhood of his

supposed estate; they knew him not! I then teased all the neighbouring rate collectors without effect, beyond discovering the existence of a clodhopper named "Reeves," who did not own much more than half an acre. In despair I attacked the Local Government Board, who very civilly investigated the matter, and informed me that "Jos. Rewes" was inserted by a clerical error for "Jas. Tabor," the head of an Essex family, seated in the same parish, who, if "Domesday" were to be trusted, would have had but a few hundreds a-year to live upon.

A few gentlemen, in cases of these gross errors, have been at considerable pains to clear them up; some on the contrary nothing will induce them to answer, the consequence being that I have omitted a few acreages, which though exceeding 3,000 acres are palpably in error. Mr. Potts, for instance, of Chester, is down for 5,560 acres in Staffordshire, rented at 221*l.* a-year. Staffordshire marl is not exactly the same thing as Sutherland bog, as the noble owner of Trentham knows full well, and I may safely affirm that, except in the latter county, Wester Ross, County Mayo, or County Kerry, no such poverty-stricken estate could be found. All endeavours, however, have failed in the case of a "Revd. Scutt," of Bognor, whose existence is denied by the Sussex officials; and of a mysterious estate in county Down, the ownership of which is bandied backwards and forwards by the Irish Local Government Board, Lord Clanwilliam, his second son, and every other "Meade" and "Mead" whose address could be discovered in print. (*see* Clanwilliam.)

In arranging these pages I have drawn the line at 3,000 acres—the line must be drawn somewhere, how it

came to be drawn at the double 3,000 was in this wise. Having lately been smoke-driven from my paternal acres, and forced to invest the proceeds of their sale in fields and pastures new, I had spent the greater part of two years in examining every middle-sized estate then in the market, and thus knew at the time much of the values and sizes of some scores of estates in the three kingdoms. The "Return of Landowners," published early in 1876, became naturally doubly interesting to me, and in April of that year I conceived the idea of making a list of those who held a substantial share of the soil of England and Wales. Seeing at once that as the size of the estates diminished, their number enormously increased, and as poor Pickering (kindest-hearted and most regretted of all publishers) had urged the publication before summer was past, I adopted 3,000 acres as a minimum, *i.e.*, about what could be accomplished in four months' work ;—as land in England and Wales is practically always worth at least one pound per acre, no rental qualification was fixed. My labours resulted in "The Acreocracy of England." Pickering, 1876.

Forthwith the papers began to criticize. Many shortcomings and errors were pointed out, and many suggestions good and bad were given—"The Athenæum" showed conclusively that nothing so marred the value of the book as the omission of Ireland and Scotland. I, therefore, in attempting a second work, drew the line at a minimum of 3,000 acres and 5,000*l.* a-year in each sister kingdom—which was designed to exclude the almost endless McMethuselahs and O'Doghertys who possess the uplands of Ross and the bogs of Donegal. But again Milesian critics were too strong for me, and I was told that 'twas

“bbase injustice” on the part of a “bbase Saxn” to make one rule for England and another for Ireland—poor McMethuselah meanwhile never uttering a word—and so I was forced to make a hard and fast line, applicable to all three kingdoms, of 3,000 acres and 3,000*l.* per annum in the first edition of “Great Landowners.”

Burke’s “Landed Gentry,” Walford’s “County Families,” and Shirley’s “Noble and Gentle Men of England,” excellent work as each is in its own line, rather amuse some Philistines among us, by the insertion, in the first and third cases, of men with pedigrees long or splendid, who have perhaps but one dilapidated and moated grange (whence poor Mariana, unless pre-eminently moon-faced, might have in dowerless solitude gazed and sighed in vain), left to them as a relic of former greatness, the value of which may not reach 50*l.* per annum; while Walford is, to say the very least of it, uncommonly catholic in his idea of what constitutes a “county family.” Writing to one of my collaborateurs in the same field, and asking him where he “drew the line,” I was much tickled to find that he drew it at “untitled supporters of the Tichborne claimant,” the late Lord Rivers being tolerated because Peers could not be suppressed. The critics of the first stillborn Tory Reform Bill might have stigmatized even this as a “Fancy Franchise.”

Many friends again urged that the line should be drawn at 3,000 acres or 3,000*l.* per annum; but a careful test of the number of persons in one county (Lancashire), where the number of nearly landless individuals with a gross annual value put upon the few acres they had of 3,000*l.* and upwards, amounted to 142—convinced me that they, who

were I presume chiefly mill-owners, plus all the Cheshire soapboilers, Stafford potters, Durham and Northumberland coal-masters, Warwick hardwaremen, Nottingham hosiers, Yorkshire clothiers, and Glamorganshire iron-masters, to say nothing of smaller trades, would form a quite unmanageable host. To quote the words of the reviewer in the "Broad Arrow," I stick to my original "clear cut rule, even if it be a rule of thumb, whereby we may distinguish the sheep from the goats, amongst those who would have us believe them to be cream upon the milk of English society; in these days, when every man with a gardener in a drab coat and a cockade, aspires to be recorded among the Upper Ten Thousand, and to have his kith and kin enumerated amongst the county families."

Though 'tis hard for some old-established families, such as Bodenham, of Rotherwas, to be excluded because, as in his case, he lacks but a quarter of an acre, though his income therefrom amounts to about 6,000*l.* a-year, whilst Sir Goahead Scattercash, with his 3,001 acres, mortgaged for rather more than they are worth, duly appears as a "great landowner"; yet so it must be, and I can only assure Mr. Bodenham that if he can show me the additional quarter acre under some mis-spelling, he shall be duly entered in the next edition.

As some amends for this Medo-Persic exclusion, such persons as come within a minimum of 2,000 acres and 2,000*l.* rental value are arranged, like Peris outside the gate of Paradise, in sight of the blessed 3,000 sanctum, but barred out by a strong black line; their possessions are massed, and not separated into counties.

I have also to mention that I have given, in every case

but that of Mr. T. Truesdale Clarke, Mr. Clarke-Thornhill, Mr. Sotheron-Estcourt, Lord Holmesdale, and one or two others, the son's acres to the father, the Dowager's property, in every case where it will probably go back to the main estate, to her eldest son, and the wife's property to the husband ; for instance, his Grace of Devonshire has added to his acreage some 5,000, which in the return are under Lord Hartington's name.

In case, however, an amalgamation of nominally different owners is made, I take care to mention it at the foot of the notice.

No notice is taken of parts of an acre, or of shillings and pence ; in every case, therefore, where a man owns in divers counties, his acres and income will be slightly greater. Some English families here entered do not enjoy the credit of anything like their real income and area, for three reasons : first, that that area may be in Lancashire, West Yorkshire, or Staffordshire, where the return sins grievously in giving incomes without area ; or that it may be in the Metropolitan District, which is not entered at all, or that it may lie in East Hereford, West Sussex, or other well wooded district, where one-third perhaps of the whole area is under timber ; at the date of the compilation of "Domesday" woods destitute of saleable underwood being still unrated.

The rent-roll pertaining to the houses of Bedford, Westminster, Portland, Maryon-Wilson, Cadogan, and Lowndes of Chesham, to mention only a few, would look more imposing by far were London included in the return.

In Scotland great misapprehension may arise from two causes. First, that only part of that kingdom is

surveyed, and where done, well done; the result of the survey being to reduce in almost every case the supposed area of far northern estates. A recent trial between a laird and his game tenant exemplifies this. The laird had leased the moor as measuring say 20,000 acres; the tenant doubting this had it surveyed, when it was found to be about 13,000, and recovered a part of his rent. All the time the laird was acting in perfectly good faith, merely calling the place what it had always been called, viz., 20,000 acres.

Lord Southesk kindly warns me that "corrections" of acreage when sent by Highland lairds, should be received with caution, as the amount given in the blue-book would, unless the laird had bought lands in the meantime, be often nearer the truth than the corrected acreage.

A faint suspicion of this stamp of correction should be noted in the case of a Ross-shire baronet, who claims to hold over a quarter million of acres—the return giving him only 110,000; while another baronet in the highlands of Perthshire has added 30,000 acres to the total given him in the return. Recent purchases may, however, account for both corrections.

As to the second, Mr. Guthrie, a West Highland laird, sends me a most amusing homily, which I would fain have copied, but space forbids, on the emptiness and vexation of spirit entailed on a man who expects revenue from a Highland estate; he calls the rental therefrom a "delusion and a snare"; while Louisa, Lady Ashburton, tells me to erase it altogether, being something gravely past the point one might call "profitless."

In Ireland, the many complications of tenure and

custom made it difficult for the very painstaking officials who compiled the first Irish return (for there are two) to reduce chaos into order.

The instructions from London seem to have been that the compilers were to accept the poor-law valuation as a test of value. This valuation varies, as I am told, in various districts, being on an average 15 per cent. under letting value in Ulster, somewhat more in central Ireland, and even as much as 35 per cent. under the mark in Co. Kerry. This should be borne in mind where an Irish estate in this work remains without the asterisks, which mark a more or less complete correction. The lessees of lands for 99 years and upwards, a class common in Ireland, were ordered to be entered in the Irish return as "owners," as also were all such names as at the time showed on the poor-law valuation rolls. Now as every immediate lessor is treated in Ireland as owner for poor-law purposes, the confusion entailed is horrible, "middlemen" without end figuring in the return as owners. On Sir C. Domville's estate eleven such cases occur, mulcting him of about half his property. What in the year of grace 1882 is the value of Irish property to those in whose veins the pure Celtic blood flows not, I leave others to answer. I should hardly think the extirpation of landlordism in Wales could long be delayed—after its extinction across St. George's Channel. Can Mr. Gladstone urge that his stock is pure native Welsh when he comes to plead for his family rights over the rapidly diminishing forests of Hawarden? War is brutal! say the modern illuminati; bag and baggage must the Turk be ousted from Europe—conquest being his only title to Turkey. Let us carry the principle further,—

the Saxons, under various English kings and Cromwell, conquered Ireland. The Saxon landlord is already all but driven away. Let the descendants of the ancient Briton, in the shape of the modern Welsh, then repossess themselves of England, and let the American Indian vindicate his claims to the domain of Yankeedom !

The second Irish return, published in August, 1876, is commonly called the "amended" return ; two Ulster proprietors have referred me to it for a correct account of their possessions, the inference to be drawn being that they believed this return to be a great amendment on the first one.

A howl of indignation has, however, reached me from other parts of Erin, and owners in the three other provinces with one accord denounce the "amended" as far more untrustworthy than the original return.

As an instance, the first return makes Mr. R. Berridge, of Connemara, territorially the biggest owner in Ireland (he bought in 1872), while the amended return erases his name *in toto*, and gives his estates back to those who had sold them four years before ; I have, therefore, put the "amended" Irish return on one side, using the other alone.

As it is interesting to know a man's religion and politics, and at the same time unusual to say what they are ; I have added, where I can arrive at them, each landowner's college and club. From his college may be inferred the religion of his forebears, if not his own ; though this inference is not so invariably true as of yore. Had this compilation been made twenty years ago, every Roman Catholic proprietor might have been "spotted"

by the place of his education being given as Oscott, Ushaw, or Stonyhurst; now, on the contrary, at least fifteen per cent. of the heirs to Roman Catholic estates find their way to either Oxford or Cambridge. It is noticeable that among perverts from the Protestant to the Roman Catholic faith, though Oxford is responsible for far the greater number of cases among both laic small fry and the English clergy, the perversions of big-wigs from Cambridge more than equal those from Oxford. When a landowner's *alma mater* is given as "Edinburgh" or "Glasgow," it is, as far as I can judge, only evidence to the extent of about four to one in favour of his being a Presbyterian.

From a man's club may be pretty safely gathered his status, his politics and pursuits; for instance, in "Brooks's" one does not expect to find a violent radical; in "White's" a *nouveau riche*; in the "Athenæum" a sporting man; in the "St. George's" a hot Orangeman; in the "National" a henchman of Cardinal Manning; in the "Raleigh" one of the strictest sect of the Pharisees; in the "Turf" a great light of science; or, I may add, in the "Travellers'" a Livingstone, a Speke, or a Baker; though in justice to the "Turf," I should add that the fact of a man's membership is just as likely to mean that he is an accomplished whist player, as that he concerns himself in the smallest degree with the comparative speed of what Sir A. Lusk, in a recent attack on Queen's Plates, informed the House were nothing but "exaggerated greyhounds."

The conservative power of the soil on owners is a perpetual pill to the French extreme left; they see it, admit

it, but cannot understand it—why should a man, say they, who works 13 hours a day, and eats meat once a week, always vote for the *de facto* Government, because he owns $2\frac{1}{2}$ acres of soil? while his easier worked, better fed, and better instructed kinsman in Paris will always vote for upsetting it.

Without for a moment putting English and French liberalism on the same level, it is curious to note how the ownership of land seems to drive the possessors into the Tory fold, high and low alike. The number of men in these pages who belong to one or other of the Tory clubs will be seen to vastly outnumber that of members of the Liberal ones, even if “Brooks’s” be added (as in strictness it ought not) to the latter—*see* List of Clubs in Appendix. As to men of humbler standing—no county for its size contains anything like so many peasant holdings as Lancashire, yet a Liberal poet, who has not yet reached Tennysonian fame, writes of the general elections of 1868 and 1874—

“Frailty! thy name is Lancashire!”

If the Party leaders would condescend to take the compiler’s advice ’twould be thus given :—

To Sir S. N. At the risk of mortally offending every rising Parliamentary lawyer, insist on the simplification of all laws relating to land transfer.

To Mr. G. Pile on the agony! Impose a new and crushing tax on every dealing in the soil.

In England mines vastly complicate the return, coal property being added to and mixed with the land, a most

unfair proceeding, as coal is capital, not in any sense income, coal rents being in point of fact annual coal sales. The canny Scot takes good care in every case to separate between a man's above-ground and under-ground rental. Again the cases of exaggerated incomes from the ground landlord being credited with the whole rent, from building property, which will eventually fall in to his grandchildren, are very frequent, when estates impinge on large towns or fashionable watering-places. The return takes care to note five of the more glaring instances of this exaggeration, viz., the Duke of Norfolk, at Sheffield; Lord Calthorpe, at Birmingham, Sir John St. Aubyn, at Plymouth; Sir J. Ramsden, in Yorkshire, and Lord Haldon, at Torquay; I have added notes to a few more cases that have come within my own ken. In regard to other mineral property I am much indebted to Mr. Jasper More, late Member for South Salop, who has pointed out to me the incongruity of entering incomes from coal, and not those from lead, tin, and copper. Lead and other metallic mines, though now rateable, were not so at the date of the English return, and in consequence many Welsh and Cornish estates are returned at but a tithe of their real value, for I need hardly say that where, as in Lord Lisburne's case, a mine proves "real jam," the owner is in no hurry to turn it into a limited company.

One reviewer in his critique says plaintively that "many who answer the requirements of Mr. Bateman's 3,000 acres and 3,000*l.* a-year, by no means as an actual fact are in receipt of that income." True words, forsooth! For the benefit of guileless fundholders who have not as

yet dabbled in land, I will give them what I consider a fair specimen of what a "landed income" of 5,000*l.* a-year means when analysed. My typical 5,000*l.* a-year squire shall be called—

Leaving our worthy squire the magnificent annual sum of 1,032*l.* to live upon. The subscriptions, I think I ~~may say~~, are hardly over painted—being, as folks say, “the least that can be expected from a person in Mr. S.’s position.”

In conclusion, let me say that this compilation (partially attempted in 1876 for England alone) was undertaken by me simply as a labour of love, when no one else seemed disposed to attempt it; it is, no doubt, full of errors, but such errors would be tenfold were the process repeated by any one who, unlike myself, lacked a fair knowledge of who’s who.

Also let me express my gratitude to many correspondents who have taken the trouble to correct their own notices, and to point out errors in those of their neighbours; I venture to hope that others will follow their good example, and where they find a mis-statement, will send me a correct one, noting in cases where they have added

to their family acres by purchase, from whom those acres were bought, or in the unhappy case of a dwindling patrimony, to whom they were sold, so that in a fifth edition I may get my "Great Landowners" absolutely correct.

JOHN BATEMAN.

BRIGHTLINGSEA, COLCHESTER,
June, 1882.

NOTE ON ARRANGEMENT.

WHERE the letter **S** occurs after a name, it denotes that the person to whom it is attached, or his father, is noticed in Mr. Shirley's "Noble and Gentle Men of England" as being either head of, or head of a junior branch of, a family who held land in England since the time of Henry VII., in unbroken male line.

I am indebted to Mr. Shirley for having carefully gone over this list in 1879; his book, I may say, excludes all families which did not in Henry VII.'s time hold land enough to give what we now call the position of a "county family."

Some correctors, however, demur to my omission of the **S** in their cases, and being no genealogist myself, and unable to take up the genealogical cudgels for Mr. Shirley, I have inserted in a condensed form their claims.

Attached to a name means that the corrector has added or included his woods.

- *** 3 asterisks mean a careful or minute correction, or that the notice has been sent me as "correct" or "now correct."
- ** 2 asterisks mean that the notice has been returned me as "fairly right," "approximately true," or "not far from the mark," "roughly corrected," and so on, as well as in a few cases returned without remark, implying that all was about right; these last, however, are but few.
- * 1 asterisk points to an unsatisfactory correction, either of acreage only (this is very common), or to a correction in part only of the figures, or to an admission (in three cases) that the figures were "not as far wrong as some the corrector had seen in 'Domesday.'"

To many landowners' names I have added a list of their services to the Queen or the Parliament, irrespective of such local services as are the usual penalties of local greatness—*i.e.*, Shrievalties, Lord and Deputy Lieutenancies, Militia and Volunteer commands, and Justiceships of the Peace. Almost every great landowner worthy of his salt (and not a few quite unworthy) have filled one or more of these posts; had I inserted them the volume would have been far too bulky.

Where dates of succession of widows are given, these dates only refer in nine cases out of ten to the year of their widowhood.

Where a father, a brother, a husband, or other predecessor had sent a correction for the edition of 1879, the present owner has not been teased for a further correction, personal details only being changed.

RONETAGE

C.,

DECEMBER, 1882.

LLINGS.

to Messrs. Harrison, 59, Pall Mall, London.

[FOR OPINIONS OF THE PRESS SEE OTHER SIDE.]

Sir Bernard evidently spares no pains to improve the volume with which his reputation is so intimately connected.

"GLOBE," February 7, 1882.

Burke's Peerage has long been regarded as one of the chief authorities on the subject with which it deals. * * * In the present issue, besides the usual corrections, there are several important additions which add materially to the value of the work. These include a memoir and arms of the Duke of Albany; a list of holders of the Albert medal; a list of Knights and Companions of the various Orders, in order of precedence; relative precedence of such Knights and Companions arranged alphabetically; lists of Maids of Honour, Diplomatic Agents, and Consuls; naval rank of command; relative rank of the officers of the army and navy; precedence in the Colonies and within the Dominion of Canada; warrant of precedence in India; and the new territorial and former designations of the regiments of the army and militia. * * * The present volume appears to have been compiled with the care and correctness which has for many years characterised this work.

"ILLUSTRATED LONDON NEWS," January 7, 1882.

"Peerage and Baronetage" now before us, enlarged and perfected in every possible way. Unrivalled are our hereditary orders, and unrivalled, too, is this record of them. The "Almanach de Gotha," and the "Annuaire de la Noblesse," the best of Continental books of the kind, bear no comparison with it.

All this property, except 400 acres, is entered in this return under the head of "Rewes, Jos.," of Prittlewell. The compiler was some months in discovering that there never was such a man, and the Local Government Board explain it as "a mistake of the copyist" for "Tabor, James"; if mistakes of this magnitude occur often, the value of the return would not be great.

The Duchy of Cornwall extends over parts of seven counties, the acreage being 74,113, and the (nominal) rental 37,509*l.*, inclusive of 4,611 acres entered under the PRINCE'S name; but it must be remembered that in the return of 1874 lead mines being un-rated were unentered. The chief value of the Duchy is in its Devon and Cornwall mines, of which the very best are workings on lead.

I.—A TABLE SHOWING THE DISTRIBUTION OF THE AREA OF THE UNITED KINGDOM AMONG THE GREAT LANDOWNERS THEMSELVES, DIVIDED INTO SIX CLASSES.

Class I.	No. of persons holding	100,000 acres and	upwards	44

			100,000 acres	71

,,	VI.	Do.	do.	between 3,000 and	
			6,000 acres	982
<hr style="width: 100%;"/>					2,500

This table excludes holders of large areas the rental of which does not reach 3,000*l.*; a list, however, of the more noteworthy of these exceptions is given further on. This and the following tables do not take in the Metropolitan area, the Isle of Man, or the Channel Islands, or the estate of the HON. C. W. WHITE.

Holders of between 2,000 and 3,000 acres, or of between 2,000*l.* and 3,000*l.* rental from estates of over 3,000 acres 1,320

This table, as well as Tables II., III., and IV., was compiled in 1879; the alterations which have since taken place in the distribu-

tion of English land would not materially alter it, or them. Some men have increased their wealth, or, in the expressive North country phrase, "kept a-scrattin of it together," while divers eminent firms of auctioneers have been kept busy dispensing the dirty acres of those more unfortunate or more lavish. In this the "merrie month of May" chaos reigns in Ireland; in half that distracted kingdom the peasantry are now virtually owners of the soil,—paid for though it may have been, and in many cases was, with Saxon cash, the fruit of Saxon toil and industry.

I may mention that, since the Premier has taken the *détenu*s of Kilmainham into his confidence, but two Irish landowners have taken the pains to correct the figures contained in the body of this work. Are they in hiding in caves or bullet-proof huts? (they can hardly think that letters of inquiry dated from the Carlton Club are likely to contain dynamite); or do they consider that Irish proprietorship is so utterly illusory under the present régime that to correct is a work of supererogation?

II.—A TABLE SHOWING THE LANDED INCOMES OF SUCH OF HER MAJESTY'S SUBJECTS AS POSSESS 3,000 ACRES RENTED AT 3,000*l.* PER ANNUM AND UPWARDS, DIVIDED INTO SIX CLASSES.

Some changes have come over clubland since 1879: The "Scottish," "Royal Irish," "Bachelors'," and "Salisbury" have, for good or evil, added themselves to the already lengthy list of clubs, while the "Junior Naval and Military" has resolved itself into a political club as the "Beaconsfield," thus adding to the disproportionate number of Great Landowners who belong to Tory clubs; which disproportion is far more affected by the numerous (and somewhat late) secessions of Whigs who cannot stomach recent Radical legislation. In Liberal circles it is rumoured that the late internecine feud at the "Reform" has numerically strengthened the "Devonshire" not a little.

V.—A LIST OF PEERS AND PEERAGES WHOSE ESTATES HAVE BEEN ADDED TO THOSE OF LARGE-ACRED PEERS IN THE PRECEDING TABLE.

*None of these Peers possess the double qualification of 2,000 acres worth a minimum of 2,000*l.* per annum.*

VI.—TABLES SHOWING THE LANDOWNERS DIVIDED INTO EIGHT CLASSES ACCORDING TO ACREAGE—WITH NUMBER OF OWNERS IN EACH CLASS ; AND EXTENT OF THEIR LANDS.

“Peers” include Peeresses and Peers’ eldest sons.

“Great Landowners” include all estates held by commoners owning at least 3,000 acres, if the rental reaches £3,000 per annum.

“Squires” include estates of between 1,000 and 3,000 acres, and such estates as would be included in the previous class if their rental reached £3,000, averaged at 1,700 acres.

“Greater Yeomen” include estates of between 300 and 1,000 acres, averaged at 500 acres.

“Lesser Yeomen” include estates of between 100 and 300 acres, averaged at 170 acres.

“Small Proprietors” include lands of over 1 acre and under 100 acres.

“Cottagers” include all holdings of under 1 acre.

“Public Bodies” include all holdings printed in italics in the “Government Return of Landowners, 1876,” and a few more that should have been so printed, being obviously Public properties.

“Peers” and “Great Landowners” are assigned to those counties in which their principal estates are situated, and are never entered in more than one county. The column recording their numbers in each county must be taken with this qualification, but the acreage of all the “Peers” or “Great Landowners” in each county is correctly given, and their aggregate number, as well as their aggregate acreage, may be learned from the summary.

These figures are compiled from those at the foot of each County in the Return of 1873. They do not harmonise exactly with the summary at the beginning of the Blue Book, but that summary itself varies from the County summaries in many instances—in Durham, for instance, by some 2,800 acres.

These tables (and the dissertation thereon) were compiled for "English Land and English Landlords," by Hon. GEORGE BRODRICK, published by the Cobden Club in 1880, the dissertation being somewhat toned down so as not to offend men of extreme Liberal views.

NOTES ON THE FOREGOING TABLES.
—♦—

“STATISTICS!—why they may be made to prove anything,” said an eminent civil engineer to the Compiler a few weeks ago. “The London death-rate, for instance, is the greatest lie I know; for the bulk of the great middle class, as is well known to Doctordom, if it can possibly manage it, goes into the country to die.”

A lie of this kind was the original cause of the compilation of the much-abused “Return of Landowners, 1873,”—viz., that in the census tables of 1871 some 30,000 persons only were entered under the head of “Landowners;” which so-called fact was much gloated over by those who would fain apply Mr. Bright’s “*blasing principles*” to our existing land system. This lie vanished with the publication of the Government return of 1873, in the year 1876; the landowners being found to come to something like a million.

Still it was evident that, useful as this compilation might be, it was marred by several serious blots, such as the non-entry of the Metropolitan area, the omission, in some counties at least, of the woods which in 1873 were still unrated, and the occasional double entry of one and the same man, especially where he was blessed with a double-barrelled name, such as Burdett-Coutts or Vernon-Harcourt, to say nothing of grosser cases, where some four surnames are strung together, rope-of-onion fashion, like Butler-Clarke-Southwell-Wanderforde or Douglas-Montagu-Scott-Spottiswoode.

A study of the Blue Book convinced me that something like 10 per cent., if not more, of the landowners thus appeared more than once; and, when compiling “The Great Landowners of

Great Britain," I wrote to every large owner begging a correction, the answers proved that my surmise was perfectly right. One instance may be given.

Case of CAPT. EDWARDS-HEATHCOTE, copied verbatim from the Return (his real initials being J. H.) :—

STAFFS.	Name of Owner.	Address of Owner.	Extent of Lands.			Gross Estimated Rental.	
			A.	R.	P.	£	s.
Page 19, line 19	Edwards, H.	Apedale Hall ...	962	3	0	1,587	12
Page 27, line 42	T. H. Heathcote, Capt.	Audley	--	--	--	9,703	16
Page 27, line 44	E. Heathcote, J. E.	Newcastle, Stafford	44	0	20	154	0
Page 27, line 45	Heathcote, J. H. E.	Apedale Hall ...	--	--	--	1,097	0

Capt. Heathcote's real acreage is much over the amount with which the Return credits him. The property lies in at least four parishes,—principally in Audley, in which, I believe, Apedale Hall stands ; and Newcastle is his post town.

Having considerably weeded out these double, treble, and multiple entries before compiling "The Great Landowners," I have used that work, as well as the Government returns, in compiling the foregoing tables, using only such corrections as had been sent up to Christmas, 1877, but none of later date. Curiously enough, these corrections would not materially alter the totals in each column, because the cases of over-estimation in the Return are very nearly balanced by others which tell in an opposite way.

The 3rd Class (squires), and the 4th and 5th (greater and lesser yeomen) are averaged on the scales of 1,700, 500, and 170 acres, in all cases but Cambs., Northumberland, Rutland, Staffordshire, and Merioneth, where, if the usual averages had

been strictly adhered to, the result on Class 6 would have been to make a "small proprietor" in Cambs. owner of but $11\frac{1}{2}$ acres, whereas he really holds $16\frac{1}{2}$; while a Northumbrian in the same class would have been lord of nearly 50 acres. Suspecting this to be false, I worked out the actual extent of the lands held by the "squires" on Tyneside, which proved them to hold 355 acres apiece more than their fellow-squires nearer Cockaigne.

As to Staffordshire, a county very familiar to me, the staggering fact came out, after totalising the lands proper to each class, that the 6th Class landowner in Staffordshire was the pariah of his race, and not only a pariah, but one degraded so utterly as to be owner of but 11 acres; while a semi-Cockney of the same class in Surrey, which county most nearly approached him, held 13 acres of the soil. Still, though every statistical dodge has been tried to raise the 6th Class Staffordshire pariah from his low estate, every dodge, though it somewhat softens down his evil case, still fails to rid him of his disgrace. He, as owner of but $12\frac{1}{2}$ acres, is still *the* pariah of England.

The fact may perhaps thus be accounted for. At a very rural petty sessions in Northern Stafford, colloquies like the following were often taking place :—

MILD ASSAULT CASE.

Chairman of Justices loq. : "Prisoner, we have decided to convict you. You had no business to take the law into your own hands, and to give the man (though we must own you had much provocation) two black eyes, to knock him down, kick him, kneel on his stomach, throw his hat into the fire, knock out the ashes of your pipe into his left eye, and, finally, to use very bad language towards him."

Prisoner : "Noh, sur, A knows A didna oughta a doon it—

leastways, not quoit so mooch on it; but ye see, sir, A wasna 'ardly sober at the toime."

Chairman of Justices (severely): "Drunkenness is no excuse."

(To Head Constable): "Shallcross! what's this man's position?"

Shallcross: "Milks three caaws, sir."

Prisoner: "A dunna: you're a loiar."

Chairman of Justices (excitedly): "Really! you mustn't," &c.

Prisoner: "But A ony milks two—t'other's a cawf."

Chairman (after consulting Colleagues): "Very well, then, we fine you fifteen shillings, or twenty-one days."

This police case only illustrates the fact that in the humbler walks of life, in both Cheshire (a small-averaged county) and Staffordshire, the position and respectability of a man is gauged by the number of cows, or rather "caaws," he milks.

To my certain knowledge, there are hundreds, nay thousands, of colliers who hold from four to eight acres, milk two or three cows, and willingly slave in the pits or iron-works to provide the rent in case they are tenants, or the interest on the inevitable mortgage in case (as 33,000 of them are) they are freeholders.

The prevalence of this mania for cow-milking as the badge of respectability in Mercia, as contrasted with the counter mania for the same badge in the form of keeping a "servant gal" or a "one-oss shay" in Middlesex, accounts for the large number and small extent of Mercian sixth-class holdings. Rutlandshire is greedily seized upon by the host of pundits who have dilated on the Government Return as a text to preach a statistical sermon upon, viz., by *The Pall Mall Gazette* (of yore), *The Spectator*, Mr. Frederick Purdy,—Hon. Lyulph Stanley, M.P., Mr. Lambert, and others whose names have escaped me,—or at least by most of them; 'tis a tempting text—only $4\frac{1}{4}$ pages long, as compared with 185

pages for York—but to me the sermons in figures thereon preached seem, like the London death-rates to my host of last August, to savour of the lie statistical. Rutlandshire folk may be estimable, astute, or both, but somehow they have not managed to keep possession of the acres, of all others (Leicestershire not excepted), most glorious for a fox-hunting gallop.

For instance, among foreigners owning their soil are the following:—

Adderley, Sir Charles (now Lord Norton, a Warwickshire man).

Aveland, Lord (who is classed as a Lincolnshire Peer, his principal property being there).

Belgrave, Mr., of Maydwell, in Northamptonshire.

Brooke, Sir W. de C., Bart., also of Northamptonshire.

Hankey, Mr., of Balcombe, Sussex.

Lonsdale, Lord, from the North Country.

Northwick, Lord, a Worcestershire Peer.

Richards, Mr. Westley, of Birmingham (name dear to lovers of the trigger).

Exeter, Lord (who is classed as a Northamptonshire Peer).

Pochin, Mr., of Edmondthorpe, Leicestershire.

Pierpoint, Mr., of Chippenham, Wilts.

Rutland, Duke of, a Leicestershire Peer.

Kennedy, Mr., "of London" (a somewhat vague address).

De Stafford, Mr., a Northamptonshire man.

Blake, Mr., of Welwyn, in Herts.

Laxton, Mr., from Huntingdonshire.

These sixteen persons among them own nearly 37,000 acres, or two-fifths of the whole county.

Again, the unwary statistician who can only succeed in finding five persons ranging from 1,000 acres to 5,000 might be misled by supposing that "*Mr. Fludyer*," who figures for 1,100 acres, and "*Mr. Hudyer*," who owns 1,500, are two separate persons; whereas Sir John Fludyer tells me that he is the person aimed at in the Returns of 1873, under both the letters F and H.

Where landowners only reach five in the third class, a mistake

of one is serious, and any generalization therefore based on Rutlandshire alone would affect England as judged thereby to the extent of one-fifth at the least.

Merioneth deserves special distinction as exemplifying Class-6 in its highest stage of ownership ; yet a walk through two counties would bring a wayfarer from this paradise of small proprietors into Staffordshire, its lowest type of degradation. A glimpse at the column devoted to "waste" will show the reason why—a reason in itself sufficient to prove that the parochial magnates who compiled the crude materials for the Return had many curious eccentricities. "Waste" figures for only 416 acres in Merionethshire—certainly a most bucolic part of the Queen's dominions, if not exactly (as may be said of Connaught or Wester-Ross) "west of the law." There is no doubt that a dozen spots could be picked on its wild mountain ranges where no policeman could be found within half-a-dozen miles. Contrast this with the neighbouring counties of Brecon, Denbigh, Montgomery, and Radnor, where the waste reaches a total of 215,000 acres, or say 53,000 acres each. Yet Merioneth is a wilder county than any of the four. The obvious moral is that in Merioneth all *joint* lands have been equally divided in the rate-books among the participants, while in the four neighbouring counties they figure not as *joint*, but as *waste* lands. As to waste, though no uniform system of excision from other lands has been adopted in the Return, it may be roughly taken as a fact, that generally (but by no means always) they include, in the southern counties, heaths, charts, unfenced land, and, in some cases, salt marshes ; and, in the northern ones, all such land as is entered in the valuable agricultural returns published of late years annually as "mountain pasture" and "barren heath." But on what principle can one reconcile figures like the following :—Kent—waste, five thousand odd acres,

Surrey—forty thousand? Kent is more than twice the size of Surrey, and as a fact contains, though perhaps in smaller proportion to its area, quite as much “heath,” “common” and “chart” as Surrey. We must guess that in the rate-books of Kent these wastes swell the estates of the local Lords of the Manor.

The northern counties contain vast areas of “waste.” Much of this is “waste” only in name, being unfenced, heathery-furzy-ferny-swampy-rocky pasture, much of it at a level of some 1,000 to 2,000 feet over sea-level, and affording fair pasturage to the hardy local sheep and cattle, though useless as nourishment to a 3,000 guinea shorthorn. These “wastes” are locally divided into what are called *cattle-gates*, each *gate* representing sufficient summer feed for one beast. In Kendal, Hexham, or Carlisle such cattle-gates are as saleable as an “eligible building plot” is in Kennington, Hoxton, or Camberwell; in no sense are they wastes: they are rather the rough survivals of some fossilized communal land system.

Let me with true Tory barbarity banish a few of the south-country land-law agitators, to try the experiment of settling themselves as virtuous and contented agriculturists on five-acre plots, carved out of the braes of Skiddaw, treeless, undrained, exposed to all the winds, and handsomely fenced with rough posts and rotten colliery rope. I fear the contentment would vanish, whether or not the virtue should remain. The agitator (special: if eloquent) is a proverbially thirsty soul: picture his horror finding the nearest beer-house eight miles off, and the friend: grog-shop another five! Meanwhile, let him bear in mind a few simple facts—that in the northern counties he may have to keep his wife and bairns without such aids to digestion as onions, gooseberries, strawberries, carrots, apples, cherries, cabbages, and peas, none of which flourish in Northumbria over the 1,000 feet level,

besides combining all trades in his own proper person—such as stonemason, waller, butcher, plasterer, shoemaker, painter, glazier, and possibly accoucheur. The case of the southern wastes is equally unpromising in a money-making or self-supporting point of view. Many a Kentish “chart,” if parcelled out into ten-acre freeholds, would scarce support a four-year old baby with a healthy appetite on each of them. Their only advantage over the northern moors is their much larger allowance of bright sunshine—a commodity of which the supply is now regularly registered in the daily weather reports.

Irish ills, Irish grievances, we hear not a little of these nowadays : one grievance under which St. Patrick’s protégés suffer is often overlooked, *i.e., the want of bright sunshine.*

Lord Beaconsfield, touching on matters Irish, alluded to this when he spoke of “The incessant rain-drip on shores washed by a melancholy ocean.”

Ireland is Nature’s buffer and umbrella to break the wild violence of the storms so oft and so unkindly sent us from New York, and the gutter to carry off the superfluous rain. England thereby benefits. Western England gets oftentimes more than it desires of rainfall. Corn-growing is but a secondary interest there. Cattle and cheese make the profits, and pay the rents. Irishmen should follow suit ; instead of increasing the numbers of a starving peasantry, and glueing them to the soil, they should leave the ungrateful soil to itself, and to the cattle whom it could, ¹under an intelligent system of breeding and rearing, carry with ²ease ; or if they must continue to cultivate the soil, cultivate it ³where the sun does occasionally shine often enough to ripen a ‘crop of oats—or something better.

Meanwhile, the Irish coasts swarm with fish which they seldom even try to catch. Any capitalist who introduces a new manu-

facture or handicraft is sure to suffer in purse, even if he escape a bullet in the head.

Why, again, may I ask, is it that an Irishman will only dig a pratie out of his own easily dug, friable peat soil? He does not care for the same job on the stiffer lands of New York, Ohio, or Illinois. No; he severely sticks to town life and its joy, the whisky-shop; he hardly even enters the country parts of Yankee land. No; the industrious Irish peasant, as I know him best in Co. Mayo, loves to work ten minutes, then to rest on his long-handled spade for another twenty, then perhaps he does a furious spurt of labour for a quarter of an hour, which deserves to be rewarded, as it generally is, by well-earned rest against the nearest cabin wall, and a pipe of tobacco as a soother, and so on *ad lib.* Irish soil for the Irish!—hurrah, t'would demean a bold peasant to delve in stiff clays, such as the East Saxon hirelings of our East Saxon agricultural prophet, Mechi, delve and moil in, from six till six, or something like seven hours more work than the most industrious Galway or Mayo man ever did in a day.

French peasants thrive; Irish peasants don't.

French peasants work; Irish peasants won't.

Yet, according to Roman Catholic lights, France ought to be a blighted and heaven-accursed country, where Gambetta exercises his wicked will over the priesthood, and mightily oppresses them, while our British Premier has taken the best of care to denude Erin of the only educated men who could hold their own against the rural Irish priest.

The climate of these islands, I fear, is not suitable for what the French call "the small culture." No man on an average British plot of $2\frac{1}{2}$ acres can raise and support a healthy family. I would put the smallest desirable peasant-holding at from $4\frac{1}{2}$ to 6 acres, and these only in the eastern—*i.e.*, the drier—half of Eng-

land. In the western counties, where the bulk of the land is under permanent pasture, and corn-growing is a secondary interest, the minimum should be raised to what would keep four cows ; and this minimum would vary much in different counties—say from 9 acres in the vale of Evesham, to 45 or 50 in north-western Devonshire. Desirable as it is in every way to encourage the subdivision of the soil on political grounds, specially from the moderate Tory point of view, it cannot be too strongly urged that if a man buys a small freehold (as we all hope he may be able to do when Sir Charles Dilke carries his intended (?) measure for the hanging of all conveyancing counsel and solicitors whose deeds of conveyance exceed 40 lines), that man should have some other trade or means of livelihood than the tillage of the soil. We cannot stand an indefinite increase in the number of acres under such crops as lettuce, radishes, cabbage, celery, and onions ; the supply would soon exceed the demand, and the cultivator would starve. 217,000 “small proprietors” are already in our midst—men who own some twenty acres apiece—and it will be well for England when the number is quadrupled. Beyond that point it would so far do harm as to (I believe) materially reduce the amount of food grown on the fair face of Old England. In view of the terrible competition of American produce, large capital, open-handed use of all manures, close-fistedness in bargaining, and credit enough to avoid having to sell at bad prices, combined with a largish area to work on, and much knowledge of the business, are the only conditions under which the British farmer can hold his own. Men of this stamp are far too wise to aspire to the ownership of the lands they till.

When divided by the number of small proprietors in Class VI., the four million acres they hold shows the following approximate average size of holdings in each county :—

Staffs., 12½	Somerset, 16	Glamorgan, 21½
Flint, 12½	Cambs., 16½	Anglesea, 21½
Surrey, 13	Carnarvon, 16¾	Beds., 21½

Hampshire, 15¾	Sussex, 20 ¹ / ₁₀	Cardigan, 39½
Derby, 15¾	Northampton, 20½	Merioneth, 41½

It may be noted how closely the averages of many neighbouring counties run—the four northern counties and their neighbour, the North Riding; the three cider-making counties of Gloucester, Hereford, and Worcester; Lancaster and the West Riding; Kent and Sussex; and, though divided by the “silvery Thames,” it is hard to raise a distinction between a small holding in Oxon and its fellow in Berks.

The two classes of yeomen show also a few curious facts; notably, the very large proportion of them who have the prefix “Rev.” to their names. Of course it may so happen that in some parts of the country the rate-collectors, following the example of the Vicar of Owston and his Diocesan of Lincoln, refuse this prefix to our non-performing clerics, and thus simplify the labour of cleric-extraction from the ranks of the yeomen; but I take it that as a rule not only “Church Parsons,” but their brethren “Ministers of Religion” who so often (and wisely) are

associated with them in the modern toast-list, and even "Holy Romans," are entered in the Return of 1873 as "Reverends."

Their total number is 3,185, out of a total landed yeomanry of 33,998; in other words, not far short of ten per cent. Names with the clerical prefix are thickest in Northampton, Leicester, and Rutland, where about one in five of my yeomen is a cleric. This, of course, means that the glebe-land has not been entered, as the Local Government Board directed, as the property of "The vicar of Blank," but in the vicar's name, as "Rev. J. Smith."

After all, "yeomen" is but a makeshift title for holders of between 100 and 1,000 acres. If called out for a yeomanry drill, 'twould be diverting not a little to see, dressed in line, Mr. Goschen (halting between two opinions), Sir R. Cross (smiling on his neighbour), a popular Protestant Dean, arguing a theological point with the Ex-President of the E.C.U., while his rear-rank man, Mr. Coupland, who rules in Leicestershire, might talk fox-hunting with the Poet-Laureate and an eminent Hebrew financier. Still, as no better name suggests itself, we must content ourselves with calling them "yeomen."

It is much to be hoped that, if ever a revision of the Great Return of 1873 is made, a separate volume will be given to all town properties, as it is essentially absurd to mix the rental (say 10,000*l.*) derived from a row of warehouses in Bristol, covering three acres, with 50*l.* more derived from fifty acres of Gloucestershire clay. This is always done in the present Return; thus—

*Extent, 53 acres; rental, 10,050*l.**

Let us also hope that, ere then, our rulers, even if they do not proceed to the violent measure with which I have saddled Sir Charles Dilke, will shatter the legal bonds which fetter and prevent the free sale of land, and the expansion thereby of Class 6—a class which, if multiplied fourfold, would add greatly

to the stability of our fatherland and its institutions. Could they but effect this (I could hardly say so much in 1882), I for one (Tory though I be), shall not regret that, for what I hope is but a short space, the tree-planter of Hughenden succumbed to the woodcutter of Hawarden.
