* In using this Table, take from the Kalendar the time of High Water at Leith; add to it the time opposite the place required when the sign + is prefixed; subtract it when the mark — occurs. Thus the time of High Water at Leith in the morning of January 3 is 11h. 45m.; the time in this Table opposite Liverpool is — 2h. 55m.; and by subtracting this from the former there is obtained 8h. 50m. for the morning tide at Liverpool on the day required.

All the calculations in the Kalendar are made in Greenwich Mean Time.

Farmer's and Grazier's Kalendar.—In fresh weather, where the soil is moderately dry, the plough may be kept in motion.—To make the feeding of cattle remunerative, it is necessary that the most unremitting attention be paid to the animals. Whether they are fed in courts, byres, or boxes, they ought to be kept warm and comfortably littered, whilst their food, of whatever description, ought to be regularly supplied at stated hours. Crushed grains, and artificial food given in addition to stored roots, will be found a profitable mode of feeding, and chopped straw may also be given as a healthy and economical addition to their diet. Cows require succulent roots, or food prepared by steam or hot water, to yield milk copiously. Shelter new dropt lambs, and give their dams roots, hay, and bruised grain, or linseed cake.

Gardener's Kalendar.—When the frost is not severe, trench, manure, and turn up in ridges all vacant ground, and prepare hotbeds. In open and dry weather, sow in mild exposures, for a succession, a few early-frame pease, common beans, short-topped radishes, lettuces, carrots, onions, spinach, and curled parsley, protecting them from the frost by mats or straw; and, in hotbeds, sow cauliflowers, melons, cucumbers, small salading, early cabbages, and kidney-beans. Plant, prune, and train standard and wall fruit-trees, gooseberry, raspberry, and currant bushes. Edge beds, form new flower-gardens, and shelter from frost tender evergreens, tulips, ranunculuses, &c. Pot choice dahlias, placing them in a stove or hotbed. Air and keep dry carnations and stage auriculas. Plant snowdrops, crocuses, gladioluses, irises, &c.

Bank-Holidays are marked †. When they fall on a Sunday, they are held on the following day.

Farmer's and Grazier's Kalendar.—Frost being a powerful agent in obtaining mould for covering seeds, plough grass and other lands intended to produce a crop. Whether turnip be folded or carried from the field, plough the land as the crop is removed, and wheat-sowing may follow. Beans and oats may be sown; but it is only rich dry soils which can be seeded so early with prospect of success. In mild weather thorn hedges may be dressed, and new ones planted. Lay up stores of seed-corn, put implements into working trim, and execute many little jobs, that no interruption may be experienced in sowing-time.—Animals about to bring forth merit particular attention,—the supply of milk and strength of offspring being affected by the dam's treatment previous to birth. Keep calves warm, clean, and dry; give hay and sliced roots in addition to liquid food to such as are rearing.

Gardener's Kalendar.—Make ready all the ground intended for early crops; and, when the weather is favourable, continue to sow every fortnight pease, beans, onions, spinach, savoy, lettuces, celery, cauliflowers, carrots, parsnips, and radishes, as directed in the kalendar for the preceding month. Cut early kidney potatoes for seed, and put them into the stove or hotbed in order to start them for planting out. Clean shrubberies, roll walks and lawns, and plant out evergreens and shrubs of all kinds, particularly roses. Put cuttings into rich light soil in well-sheltered borders, and plant stocks of the common wild rose for standards on which to bud the Chinese and other fine varieties. Protect all tender plants from the effects of frost, and air greenhouse and stage auriculas and polyanthus frames. Top-dress all fine auriculas and polyanthuses in pots or boxes. Strike dahlias from roots in hotbeds, and sow balsams, cockscombs, tricolors, amaranths, sensitive and ice plants, as well as other tender annuals. Plant carnation-layers, ranunculuses, anemones, and bulbous roots, and divide the roots of herbaceous plants.

Farmer's and Grazier's Kalendar.—Finish wheat-sowing about the middle of the month. Sow beans, oats, and barley as soon as the weather and soil admit,—reserving cold wet lands till the season advances. The seeds of clover and ryegrass will succeed amongst autumnal-sown wheats, without harrowing or rolling, unless the surface be peculiarly dry. Particular fields intended for barley or potatoes may receive a second ploughing. Prepare composts and manures for turnip. This is the best time for planting hedges.—In altering the diet of fatting animals, always let the change be to one more nutritious. Fatting cattle may be allowed bruised grain or linseed cake. If there be a scarcity of turnip for cattle intended for grass, give a small allowance of bruised grain, cake, or hay. Should the weather be favourable, potatoes may be planted after the middle of this month.

Gardener's Kalendar.—The principal crops of vegetables should be put into the ground this month. Sow asparagus, celery, cauliflower, Brussels sprouts, beets, brocoli, spinach, onions, Dutch turnips, carrots, pease and beans, savoy, parsnips, and turnip-rooted radishes. Plant red cabbage, sea-kale, kidney-beans, and cauliflowers from frames; and sow cucumbers and melons in hotbeds. Finish pruning, dress borders and strawberry beds. This is the best time to graft fruit-trees, and the China, perpetual, moss, and rosette roses, on the common brier or blush China rose, and to propagate them by layers. Pot dahlias that have pushed, and also cuttings from the offsets, placing them in a moderate heat. Protect tender plants and blossoms, and sow polyanthus, auricula, and almost every kind of perennial, biennial, and annual seeds.

Farmer's and Grazier's Calendar.—No favourable opportunity should be lost to sow grain crops. Harrow and roll clover and ryegrass sown amongst wheat, to ensure the seed germinating. Store the residue of the turnip crop, to preserve the bulbs and prevent the exhaustion of soil. Drain lands intended for green crop where previously neglected. Potatoes may be planted in favourable situations. Finish planting thorn hedges.—On store farms, this is the chief lambing season, and the shepherd's utmost attention is necessary. Cease folding turnip, and either feed sheep on stored roots, or restrict them to grass. Should the pastures be late, give sheep grains or prepared cakes. Fattening lamb-hogs require good pasture, being unable to eat turnip freely, from shedding teeth. When there is a scarcity of keep at the homestead, lean cattle may be allowed to roam over permanent pastures. Seedling grasses will seldom admit of being depastured with cattle.

Gardener's Calendar.—Sow whatever was omitted last month, and plant out such of the pot-herbs as are ready for that purpose. Continue to sow and plant out rhubarb, artichokes, asparagus, nasturtiums, sea-kale, Dutch turnips, German greens, and small saladings. Earth up pease, tie up lettuces, and in very dry weather water seedling beds. Finish the grafting of fruit-trees, and train and clean walks and edgings. Sow annuals, biennials, and perennials. Plant evergreens, and propagate by cuttings jasmine, lavender, sage, rosemary, rue, &c., and all the woody kitchen shrubs. Sow dahlias, carnations, pinks, hollyhocks, Cape, Brompton, and German stocks, China asters, and all kinds of hardy annuals. Destroy the green fly on roses, and preserve the bloom of stage auriculas from sun and rain. Top-dress all flowers in pots by removing withered leaves, and put in fresh earth. Hoe and rake gravel walks, cut box-edgings, and mow grass plots.

Farmer's and Grazier's Kalender.—Conclude the sowing of grain crops; and, with the advance of the season, use early varieties. From necessity, barley and pease may be sown up to the end of the month; but full crops cannot be counted upon from such late sowing. Prepare soils for turnip, and use every means to produce a fine tilth. Finish potato planting. Give a second ploughing to summer fallow, and never allow vegetation to make progress at this season on its surface.—Fattening cattle may be continued on well-kept Swedish turnip and potatoes. When there is a sufficiency of grass, and the soil becomes dry, stock pastures with all descriptions of cattle. In cold and wet evenings, shelter milch cows and fat cattle in courts. Wean early calves, and turn late ones out to pasture. Swedish turnips may be sown from the middle of this month to the end of it.

Gardener's Kalender.—Sow capsicums, cauliflowers, carrots, lettuces, spinach, Knight's marrow-fat pease, cucumbers, red beet for pickling, and a full crop of kidney and French beans. Transplant cabbages, winter-greens, lettuces, cauliflowers, and celery. Hoe and stake pease, water newly planted crops, and propagate aromatic plants by slips or cuttings. Plant out dahlias if there be no appearance of frost, and protect from wind and rain choice tulips, ranunculuses, and anemones. Propagate herbaceous plants by dividing the roots; wallflowers, sweet-williams, lychnis, and rockets, by slips; and China roses, calceolarias, mimuluses, &c. by cuttings. Put out into the open border calceolarias, pelargoniums, fuchsias, salvias, the verbenas melindris, with other greenhouse plants. Sow biennials and perennials if formerly omitted.

Farmer's and Grazier's Kalendar.—This is the month for sowing turnips. Where Swedes could not be sown during May, they may still be planted during the first days of June. All other varieties may be sown in course of the month. Drilled crops require attention. Weeds are most easily destroyed when young; and as a general rule, use hand and horse hoes as soon as the crops admit of the operations. Earth up early-planted potatoes. Haymaking commences in early situations. Mow grasses before the plants seed; remove the crop quickly from the ground, and soon afterwards carry it to the stack.—Sheep-shearing becomes general. Fleeces are proportionate to the treatment of animals; and every progression or falling off in condition may be traced in the quantity and quality of wool. Cattle may be best soiled this month; and this mode of feeding has many advantages.

Gardener's Kalendar.—Continue sowing the vegetables directed last month, and also turnips for autumn use. Plant out broccoli, cabbages, savoys, celery, cauliflowers in shady borders, leeks, lettuces, cucumbers for pickling, and kidney-beans. Watering is requisite in dry weather both evening and morning; and also the hoeing of potatoes, cabbages, and pea c. Thin out onions, leeks, carrots, parsnips, and early turnips. Gather and preserve kitchen-herbs. Shade and air melon-plants, and strike by cuttings double wallflowers, rockets, scarlet lychnis, and stocks. Transplant annuals, biennials, and perennials, and seedling pinks into a bed. Lift all hyacinths, tulips, and other bulbs that have ceased flowering; cut off the foliage an inch above the stem, and before putting by lay them in sand a fortnight. Re-pot auriculas, polyanthuses, &c. Mow and roll grass walks and plots once a fortnight during this and the other summer months.

Farmer's and Grazier's Kalendar.—Conclude haymaking from artificial grasses. Single out turnip, and let hand and horse hoes be in constant requisition, with a view to improving the crops and benefiting succeeding ones. Work fallows thoroughly with plough, harrow, and roller, carefully removing root-weeds by the hand. Execute draining and apply lime and lime-composts when such operations are necessary. Hand-weed grain crops.—In warm weather fatten cattle and milch cows are the better of sheds, to shelter them from the sun. Throughout summer examine flocks daily, to preserve them from the attack of flies, and use the common remedies for the prevention and destruction of maggots.

Gardener's Kalendar.—In this month prepare all unoccupied plots of ground for autumn and winter crops. Sow turnips, French beans, lettuces, and black Spanish radishes. Plant out brocoli, cauliflowers, savoys, leeks, and winter cabbages, and earth up celery. Lift full-grown winter onions, and prepare mushroom spawn. In fine weather, gather medicinal flowers and sweet herbs when in bloom, dressing them in the shade for winter use. Divest wall-trees, espaliers, and standards, of all superfluous shoots. Continue to water in dry weather, and gather all kinds of seeds as they advance to maturity. Propagate evergreens, roses, and other shrubs, by laying the young wood. Inoculate flowering and other shrubs, bud roses in cloudy weather, and divide the roots of double primroses, polyanthes, and auriculas. Lay or pipe carnations and pinks, take up anemones and ranunculuses, and put in cuttings of pansies, calceolarias, dahlias, Chinese chrysanthemums, geraniums, &c.

Farmer's and Grazier's Kalendar.—Conclude hand and horse hoeing turnip. Apply manure to the fallows, and immediately plough it into the soil, putting the ridges into proper form, and clearing out water-courses, to guard against wet weather. In mountain districts haymaking from natural grasses engages the attention of store-farmers. In low situations corn-harvest will occupy all hands.—Lambs not separated from their dams last month must be weaned and put on the best pastures. On lowly-situated arable farms get in ewes for early lambing. In high districts, select and prepare the stock which is to be sent to market in the course of autumn. Prepare ropes, thatch, and every description of store necessary for the harvest, and see that the requisite implements are in proper order.

Gardener's Kalendar.—Sow onions, early cabbages, and parsley, for the succeeding year; and lettuces, spinach, brocoli, and cauliflowers, to stand the winter. Earth celery; hoe and thin turnips; transplant brocoli, savoys, and cauliflowers, and the principal crop of celery into trenches for blanching. Cut those herbs which are adapted for distillation, or for winter use. Make mushroom-beds, propagate kitchen-herbs by slips, and take up all onions, garlic, and shalots that are withered in the stem. Continue to bud on fruit-trees, roses, and bushes, so long as the bark rises freely and the weather is cloudy. To obtain new varieties, sow auricula, polyanthus, and anemone seeds, and mignonette to blow in winter; as also the seeds of tulips, hyacinths, irises, and all the other bulbous-rooted flowers. Support and thin dahlias to improve their bloom. Shift tender exotics and hardy greenhouse plants into fresh pots. Keep the ground clear of weeds, and continue to water plentifully.

Farmer's and Grazier's Kalendar.—This may be considered the harvest month. Engage plenty of assisting hands for this important season. Guard against shaking winds by reaping before the juices have left the straw; and to avoid sprouting, keep cut crops always standing in an upright position. When the crop is fit for stacking, carry it by day and by night, and cover the stacks as soon as they are built. Prudent farmers provide stores of ropes and thatch before harvest commences. Hand-weed turnip where necessary. Finish fallows; and such as are wet and coldly situated may be sown with wheat.—On arable farms, weaned lambs and ewes for early lambing may be allowed to depasture stubbles and seedling grass. The breeders, rearers, and feeders of stock will meet at the different markets, and make arrangements for their customary changes of animals.

Gardener's Kalendar.—The operations of this month are not very numerous. Sow vegetable seeds for a spring-crop, and plant brocoli, cauliflowers, savoy, German greens, leeks, lettuces, celery, and perennial aromatic and pot herbs. Hoe winter spinach and turnips, earth up celery and cardoons, weed cauliflowers and young onions, prick out cabbage-plants, gather ripe seeds, and make mushroom-beds. Plant cuttings of gooseberries, currants, and raspberries, and also strawberries, taking out all the old stools which have twice produced fruit. Continue to divide and transplant biennial and perennial flower-roots; lay almost every kind of shrubs; and put in cuttings of evergreens, China roses, and flowering shrubs. Crocuses, snowdrops, Persian irises, dog's-tooth violets, fritillarias, crown imperials, narcissuses, and most of the other bulbous roots, may now be planted. All the rooted pinks and carnations may be planted out. Sow hardy annuals to stand the winter, and trench up ground in which to plant tulips and hyacinths during October or November.

Farmer's and Grazier's Kalendar.—Harvest being finished, this month may be considered the first in the agricultural year, as on the carrying of one crop preparations for the next should be begun. The plough should now be set in motion. Commence wheat sowing in later situations, and defer only such fields as are very dry, and situated in an early climate. Use the preventatives for smut immediately before scattering the seed, and never sow unless there be moisture in the soil to effect germination. Gather potatoes, and carefully secure them from frost.—Unless there is abundance of grass, sheep should get turnip on the pastures. In the beginning of the month remove fatting cattle to the courts, and shelter milch cows during night. Keep weakly calves warm, and allow them nourishing food.

Gardener's Kalendar.—Sow radish, lettuce, and carrot seeds; also early pease and beans in a warm exposure. Plant horse-radishes, lettuces, early cabbages, and other greens neglected last month, in sheltered situations; also cauliflowers, mint, and tarragon in frames, for winter use. Earth up savoy and cabbages as high as the leaves. Take up carrots and parsnips, cut off their tops, and bury them in dry sand. Crop the tops of parsley, to make fresh leaves for winter. Plant all deciduous trees and shrubs. Commence pruning, taking the vertical branches in fruit-trees, and cutting obliquely to prevent rain from lodging; also roses, honeysuckle, and other flowering shrubs. Protect dahlias, young carnations, and layers, from sudden frost; and, about the end of the month, begin to plant hyacinths, tulips, ranunculuses, and anemones. In favourable weather, transplant hardy fibrous-rooted plants, intermixing them in the borders, to keep up a succession in the flowering season.

Farmer's and Grazier's Kalendar.—Conclude potato harvest. Finish wheat sowing, although this grain may be sown any time on rich dry soils up to the middle of March. At this season, sow wheat from day to day as the soil is turned over. Begin to store turnips for winter use; and wheat may be sown where the crop is removed. Form lime-composts for applying in spring and summer. This is the best time for draining soils intended for green crop and fallow. Dress hedges and ditches.—Sheep intended to be fattened should be folded on turnip, and allowed dry fodder. Lamb-hogs will thrive best with an allowance of turnip on pastures. To all flocks apply the salves and lotions in common use. Cattle of all descriptions should receive fodder and shelter during night, and such as are fattening be carefully attended to in the courts or boxes.

Gardener's Kalendar.—Although hazardous, early pease and beans may be sown in a warm border; if neglected, most vegetables recommended in the last two months may still be planted, earthed up, &c., taking care to protect them from frost. Force sea-kale, rhubarb, and asparagus. Prune and plant fruit trees and bushes; and finish flowering shrubs and trees. Transplant seedling stocks, and suckers taken from the roots of the pear, codling, plum, and quince trees, to prepare them for budding or grafting different fruits upon; also stocks of the tree-rose, for budding upon them the garden and Chinese varieties. Shelter choice flowers. To make the colours of the tulip distinct, the compost ought to be changed every alternate year; an operation which should be performed this month. Tulip-soil should be one-third of fresh, light, turfy loam; one-third of fine sand; and one-third of sandy peat, or leaf-mould. Take up dahlia roots whenever the bloom is nipped by frost, and keep them in sand free from damp.

Farmer's and Grazier's Kalendar.—Continue to plough stubbles. Store turnip in mild weather. Regulate thrashing, so that there may be straw to last through the season. In mild weather dress ditches and repair fences, drain and add by every means to the stores of compost and manure. During frosty weather bring forward materials for drains and composts, and remove heavy commodities which require a firm surface for transport.—Cattle of every description should now be in winter quarters, and receive winter fare. Separate the weak from the strong. Have a constant supply of water to store cattle, and apportion their litter and food so that they may last until the arrival of the grass season. Give fattening cattle at all times as much as they can eat, commencing with globe turnip, and proceeding with food of increasing richness.

Gardener's Kalendar.—Prepare for future operations, by digging, manuring, or trenching vacant ground, and collecting dung, leaves, and turf, to make compost. In mild weather, a few early pease and radishes may be sown in a warm border, and small salads and cucumbers in hotbeds. Cover with fern, straw, litter, or mats, all such plants as are likely to be injured by the frost, either in the open ground or in frames, admitting free supplies of air when the weather is favourable. Plant and prune all kinds of trees and bushes, taking care to stake the trees that are newly planted. In pruning roses, remove the old wood, curtail the young straggling branches, adding good store of decayed manure. Fine auriculas, polyanthus, and carnations must now be treated with great care.

FAIRS, CATTLE-MARKETS, & TRYSTS IN SCOTLAND.

WHEN the appointed day happens to fall on Saturday, Sunday, or Monday, the fair is generally deferred till the Tuesday following. Fairs which are held according to the Old Style are distinguished by the letters *o s* placed after the day indicated. In some parts of the country the difference between the Old and New Styles is computed to be *even*, in others *twelve* days,—the *Old* being reckoned to be so much later than the *New* Style.

STATE OF THE FIARS-PRICES

OF THE DIFFERENT COUNTIES IN SCOTLAND FOR CROP AND YEAR 1850.

The following Tables have been prepared from authentic documents in the Teind-Office, and their accuracy may be entirely relied on. The average is that of the seven years, from 1844 to 1850 inclusive; but in a few cases, distinguished by an asterisk, that of six years only. Where blanks occur, no average could be given, the Fiars not having been regularly struck.

The Grain is computed by the Imperial Quarter,—the Meal by the Boll of 140 Imperial Pounds.

5760 sq. ells = 160 falls = 4 roods = 1 Scottish acre = 1.261183 imperial acre.

IMPERIAL STANDARD MEASURES.

I. MEASURE OF LENGTH.

- 12 inches = 1 foot
3 feet = 1 yard
5½ yards = 1 pole
40 poles = 1 furlong
8 furlongs = 1 mile or 1760 yards

Special Measures of Length.

- Hand = 4 inches; fathom = 6 feet;
69.121 miles = 1 geographical degree;
100 links = 1 chain, or 66 feet.

II. MEASURE OF SURFACE.

- 144 square inches = 1 square foot
9 square feet = 1 square yard
30¼ square yards = 1 square pole
40 square poles = 1 rood
4 roods = 1 acre
640 acres = 1 square mile

Special Measures of Surface.

- 10 square chains make 1 acre; 36 square yards of stone, brick, or slate work are termed a rood; and 100 square feet of flooring a square.

III. MEASURES OF CAPACITY.

1. General Measure of Solidity.

- 1728 cubic inches = 1 cubic foot
27 cubic feet = 1 cubic yard
5 cubic feet = 1 barrel bulk

2. Measure for Liquids, Corn, &c.

- 5 oz. avoird. water = 1 gill
4 gills = 1 pint
2 pints = 1 quart
4 quarts = 1 gallon
4 gallons = 1 peck
4 pecks = 1 bushel
8 bushels = 1 quarter
10 quarters = 1 last

dry
goods
only.

IV. MEASURES OF WEIGHT.

1. AVOIRDUPOIS WEIGHT.

- 27.344 troy grains = 1 dram
16 drams = 1 ounce
16 ounces = 1 pound
14 pounds = 1 stone
2 stones = 1 quarter
4 quarters = 1 hundredwt.
20 hundredwt. = 1 ton

Used generally in commerce.

*Special Divisions of Avoird. Weight.**Wool Weight.*

- 2 stones = 1 tod
6½ tods = 1 wey
2 weys = 1 sack
12 sacks = 1 last

The pack is 240 lbs.

Hay and Straw Weight.

- 36 lbs. straw = 1 truss
60 .. new hay
(till 1st Sept.) = 1 truss
56 .. old hay = 1 truss
36 trusses = 1 load

Flour Weight.

- 1 stone = 14 pounds
1 bushel = 56 pounds
1 boll = 140 pounds
1 sack = 2½ cwt.

2. TROY WEIGHT.

- 24 grains = 1 pennyweight
20 pennyweights = 1 ounce
12 ounces = 1 pound

Used for weighing gold, silver, &c.

APOTHECARIES' WEIGHT.—20 troy grains = 1 scruple; 3 scruples = 1 dram; 8 drams = 1 ounce.—This weight is used in medical prescriptions only.

RULE FOR ASCERTAINING THE WEIGHT OF HAY.

Measure the length and breadth of the stack; then take its height from the ground to the eaves, and add to this last one-half of the height from the eaves to the top: Multiply the length by the breadth, and the product by the height, all expressed in feet; divide the amount by 27, to find the cubic yards, which multiply by the number of stones supposed to be in a cubic yard (viz. in a stack

of new hay, 6 stones of 22 lbs. avoird. each; if the stack has stood some time, 8 stones; and if old hay, 9 stones), and you have the weight in stones. For example, if a stack be 60 feet in length, 30 in breadth, 12 in height from the ground to the eaves, and 9 (the half of which is $4\frac{1}{2}$) from the eaves to the top; then $60 \times 30 \times 16\frac{1}{2} = 29700$, and $29700 \div 27 = 1100$, and $1100 \times 9 = 9900$ stones of old hay.

RULE FOR ASCERTAINING THE WEIGHT OF CATTLE.

Measure the girt close behind the shoulder, and the length from the fore-part of the shoulder-blade along the back to the bone at the tail, which is in a vertical line with the buttock, both in feet. Multiply the square of the girt, expressed in feet, by five times the length, and divide the product by 21; the quotient is the weight, nearly, of the four quarters, in imperial stones of 14 lbs. avoirdupois. For example, if the girt be $6\frac{1}{2}$ feet, and the length $5\frac{1}{2}$ feet, we shall have $6\frac{1}{2} \times 6\frac{1}{2} = 42\frac{1}{4}$, and $5\frac{1}{2} \times 5 = 26\frac{1}{2}$;

then $42\frac{1}{4} \times 26\frac{1}{2} = 1109\frac{1}{8}$, and this, divided by 21, gives $52\frac{1}{2}$ stones nearly, or 52 stones 11 lbs. It is to be observed, however, that in very fat cattle the four quarters will be about one-twentieth more, while in those in a very lean state they will be one-twentieth less, than the weight obtained by the rule. The four quarters are little more than half the weight of the living animal; the skin weighing about the eighteenth part, and the tallow about the twelfth part of the whole.

EXCISEDRAWBACKSON EXPORTATION.

The excise duties are repaid or *drawn back* to the shipper on the goods being

exported. The drawback on beer (the malt of which is excised) is computed at the rate of 5s. per barrel of 36 galls. when made from wort of not less than 1·054 specific gravity before fermentation, and 7s. 6d. when made from wort of not less specific gravity before fermentation than 1·081.—Allowance on spirits distilled from malt only, 8d. on every gallon at proof, with 5 per cent. On every gallon of spirits at proof, distilled from malt only, when exported or shipped as stores, a drawback of 7½d. a-gallon at proof, and 5 per cent. Spirits distilled from other materials than malt only, when exported or shipped as stores, a drawback of 1½d. a-gallon at proof, without 5 per cent.

10. The revenue returns showed a decrease of £1197 on the quarter, and an increase of £77,072 on the year.

15. The Exhibition at London closed by Prince Albert.

PART II.

COUNTY OF ELGIN AND MORAY.

NAME.—The most probable derivation is from the Celtic words “Mur” or “Mor,” the sea, and “Taobh” or “Tav,” the side, being in construction “Mor’av,” the Seaside—thus answering the situation of the county, lying as it does along the shores of the Moray Firth.

SITUATION.—The county is situated on the east side of the northern division of Scotland, and is 177 miles north of Edinburgh, and 67 miles north-west of Aberdeen. It forms the central part of the ancient Province, and lies between the 57° and 58° of north latitude.

BOUNDARIES.—The Moray Firth forms its Northern boundary, the counties of Nairn and Inverness adjoin it on the West, Banffshire on the East, and on the South the northern range of the Grampian mountains terminating in Benrinnes which has an elevation of nearly 2300 feet above the sea level.

EXTENT.—The length of the county, in a straight line, is about 40 miles from North to South, and from East to West its breadth varies from 8, 15, to 23 miles. By the most direct roads, from Lossiemouth to Upper Craigellachie, its length is 58½ miles, and its breadth from Fochabers to Dyke about 26 miles. It contains 302,729 Imperial Acres.

SOIL AND CLIMATE.—The soil is generally light and sandy, interspersed with considerable tracts of clay and rich loam, which for productiveness, is equal to the Lothians. —The climate is very mild and salubrious, the average temperature being 48° 33^m.

PAROCHIAL DIVISION.—There are 21 parishes within the county, besides portions of the parishes of Boharm, Inveraven, Keith, and Cromdale.

RENTAL.—The valued rent in 1674 was £65,603, 0s. 9d Scots, which is still the rule by which the public assessments, except the prison assessment, are allocated; and in 1835 a valuation of property, not included in the above rental, was made, which amounted to £4837, 7s. 2d. sterling, making the total rental £70,44, 7s. 11d. sterling.

POPULATION.—From the following complete list of the last census of the several parishes in this county, it will be seen that, as compared with the census of 1841, there is an increase of 2473 in the population of the parishes, and including the burghs of Elgin and Forres, the total increase is 3,857 :—

The ordinary Sheriff Court is held at Elgin, every Friday at eleven o'clock, A.M., during session. The summer session commences on first court day after the 15th May, and continues till last Friday of July. The winter session commences on 15th Oct., or first Friday thereafter, and ends 4th April. During each vacation there are two ordinary Courts held which are fixed by the Sheriff.

SHERIFF CRIMINAL COURT.

The Sheriff-Depute, or his Substitute, presides at this Court, which is held for the purpose of trying criminal cases, as these occur. The prosecutions proceed at the instance of the Procurator-fiscal of the county.

SHERIFF CRIMINAL JURY COURT.

The Sheriff, or his Substitute, presides in this Court, which is held for the trial of more important criminal cases, as directed by the Lord-Advocate or his Deputes. Forty-five respectable individuals in the county (fifteen of whom are special, and thirty common jurors,) are summoned as Jurymen for each Court, of whom fifteen are balloted for each case that goes to proof.

SHERIFF SMALL DEBT COURTS.

The Sheriff, or his Substitute, holds a Court every second Thursday, at Elgin, (except during the months of August and September), for hearing and determining all claims not exceeding £8, 6s. 8d.—Arthur Duff, *Sheriff-Clerk*; James Anderson, *Depute-Clerk*.

Similar Courts are held.

At FORRES, upon the second Monday of February, April, June, August, October, and December, each year.—Robert Watson, *Depute-Clerk*.

At GRANTOWN, on the Wednesday thereafter of February, June, and October, William Ogilvie, *Depute-Clerk*.

At ROTHES, on the Thursday thereafter of February, June, and October.—James Davidson, *Depute-Clerk*.

At FOCHABERS, on the Saturday thereafter of February, June, and October.—Arthur Reid, *Depute-Clerk*.

ACCOUNTANTS.—William Grant, Forsythe & Sinclair, and Alexander Stephen.

SPEY BRIDGE TRUST.

The memorable flood of 1829 carried away the two principal arches of the former bridge, and they were rebuilt of wood in one arch, under the Act 11th, Geo. IV., cap. 129, passed in 1830, at an expense of £606l, 4s. 4d. sterling. This sum having been advanced by the late Duke of Gordon, the collection of the pontage dues was assigned over to him in security, and in payment of the interest of the advance ; and is now retained by his Grace's successor, the Duke of Richmond. The pontage duties for the year ending 26th May last, amounted to £536, 6s. 10d., and after payment of the interest of the advance, at 5 per cent., and other expenses, the yearly surpluses have reduced the debt to £2011, 14s. 9d. sterling.

Clerk—Patrick Duff, Elgin.

Treasurer—Alex. Marquis, Factor, Fochabers.

Collector of Pontage Duties—John Shand, Spay-Bridge.

Salaries—Clerk, £10 ; Treasurer, £10 ; Collector, £36 8s. per annum, with a house.

FINDHORN BRIDGE TRUST.

The elegant suspension bridge across the Findhorn on the Great North Road was erected with funds raised by a Joint Stock Company, in shares of £10 each, who have right to the pontage duties, till their subscriptions are paid off with interest. The subscribed capital was originally £6170 sterling, but it is now reduced to £3,310 sterling—the holders receiving 5 per cent. interest. The pontage duties for the year to 15th April last, were £576 19s. 5d, and are annually let by public roup, in the month of April. Up to last year pontage dues were charged on all foot passengers, horses, cattle, and vehicles, every time they passed the bridge; but they are now only exacted once a-day from same party, &c., and the dues on public coaches are reduced one-fifth.

Treasurer—Thomas Davidson, banker, Forres.

Clerk—Robert Watson, Town-clerk, Forres.

Salaries—Clerk, £10. 10s.; Treasurer, £10, 10s.

G R A N T O W N.

This is a thriving village of modern erection, situated in the parish of Cromdale, 37 miles south-west of Elgin, 25 south of Forres, and 13 north-east of Aviemore. Previous to the year 1774 the site of the village was a barren and untenanted heath. It was then begun to be built under the patronage of the Grant family, who have been its continual benefactors. It is neatly built, and possesses a town-house and prison of elegant architecture, under the jurisdiction of the sheriff of the county; and a plentiful supply of excellent water was lately introduced by the munificence of the noble proprietor, the Earl of Seafield. There is an excellent school in the village, and an hospital for 30 poor orphans has been established, on the plan of the Edinburgh Orphans' Hospital. The National and Caledonian Banks have each a branch here. Population in 1801, about 400, and in 1851 above 1000. There is a mission station, the district attached to which comprises the old parish of Inverallan. The church was built in 1802; sittings, 1000. The mission was established in 1835, previous to which time the minister of Cromdale preached every alternate Sabbath at Grantown; salary of missionary, £80.

Post Town—Forres.

E L G I N.

NAME.—From *He'y*, holy, and *Dun*, a hill, or, as some suppose, from Helgy, a Pictish general, who, it is said, built the town

SITUATION AND BOUNDARIES.—The parish is extremely irregular in its figure. The town lies in a valley, from which there is a gradual acclivity to the base of the Blackhills, the summit of which forms the southern boundary of the parish. On the north and north-west, it is protected by the Bishopmill and Quarrywood plantations, in the parish of Newspynie, and is bounded by the parish of St Andrews on the east, and Alves on the west. It measures about 18 superficial square miles.

Amount of mortifications in the manage-
ment of the Kirk-session,.....£2555 2 7 $\frac{3}{4}$

The heritors, at a general meeting held on 22d October, 1828, set aside the sum of £91, 9s. 5d. to be applied in procuring accommodation for the Poor in the parish church. At the same meeting, the heritors set aside £300 for the repair and preservation of the church, which fund is under the management of the following committee:—The Fife Trustees, Earl of Moray, Earl of Seafield, or their Factors, the Earl of Fife's Factor, the Preses of the Guildry Fund Society, the Sheriff-substitute of the county, along with the two ministers; five a quorum.

PAROCHIAL BOARD—OFFICE, 78 HIGH STREET.

Members—The Landward heritors and Burghal Heritors possessing properties of the yearly rent of £20 and upwards. *For Kirk-session*—Rev. Messrs Wylie and Mackie, ministers; Messrs James Petrie, John Dean, Alex. Scott, and James Adam, elders. *For Magistrates*—Provost Grant; Bailies Cruickshank, Walker, Cooper, and Kay. *For Rate-payers*—Messrs Thos. Ross, mason; William Stephen, merchant; James Gatherer, tailor; Alexander Asher, painter; John Adam, saddler; George Findlay, Mosstowie, and James Muil, Clackmarras.

Amount of Assessment, £1367. Rates of assessment as follow:—Proprietors, land property, 9 $\frac{3}{4}$ d. per £1; house property, 8 $\frac{1}{2}$ d. per £1; occupants, dwelling houses, 1s. 4d. per £1; shops, stables, &c., 8 $\frac{1}{2}$ d. per £1; land, 6 $\frac{1}{2}$ d per £1. Allowances for repairs, burdens, &c., on house property, 20 per cent.; on land property, 7 $\frac{1}{2}$ per cent.

Note—This is allowed on the rate, not on the rental or subject assessed, but produces the same result. For example—were the deduction made on the rental, the rates would be 7 $\frac{1}{2}$ per cent. higher on land property, and 20 per cent. higher on house property; as follows:—Land, 10 $\frac{1}{2}$ d. per £1 (instead of 9 $\frac{3}{4}$ d.); houses, 10 $\frac{3}{4}$ d. per £1 (instead of 8 $\frac{1}{2}$ d.).

PART IV.

THE BURGH OF ELGIN.

The town of Elgin was erected into a Royal Burgh by charter, granted by Alexander II. in 1234, and its rights and privileges were subsequently confirmed, and grants of land, &c., made by Alexander, Robert, James I., James II., James VI., and ratified by Charles I. in a charter dated the 8th Oct., 1633. The derivation of the name seems to be doubtful. In the Chartulary of Moray it is stated that prior to 1226 it was called Elgin, or Helgyn, after Helgy, a real or supposed General of the Picts, who, it is said, about the beginning of the 10th century, conquered Moray, and other three northern counties, and built a town in the southern district, supposed to be Elgin; while Shaw attributes the derivation of the name to the Saxon words, *Hely* holy, and *Dun*, a hill, or *Helgyn*, by changing *d* into *g*; and there is an iron seal in the town's repositories, on which the following inscription is engraved in Saxon characters:—"S. COMMUNE CIVITATIS DE HELGYN." No other distinct information can be obtained of the origin of the town; but there is no doubt of its having been at an early period a place of considerable importance. St Giles is the Patron Saint and the burgh arms represent him standing in a pastoral habit, with book in his right, and crosier in his left hand, and beneath is inscribed the motto of "*Sic itur ad astra*,"—such is the way to heaven. Elgin is the county town where all the Courts of Justice are holden, and the public business of the county transacted. It returns a Member of Parliament in conjunction with the burghs of Banff, Peterhead, Cullen, Inverury, and Kintore. There existed no regular written sett for the burgh previous to 1700; the proceedings of elections of office-bearers, &c., being regulated by usage, and the general rules established by the Scottish Parliament. In that year, however, in consequence of certain disputes respecting the mode of election the matter was submitted to the Convention of Royal Burghs, and the act passed by that body at the time, was acted upon as the sett of the burgh till the Reform Bill was passed in 1832.

Those marked with the letter "*b*" are burgesses, and are, therefore, eligible to be elected Conccillors, provided the premises on which they are registered are situated within the old royalty.

THE TOWN COUNCIL.

By the Act 3d & 4th Will. IV. cap. 76, the Council consists of seventeen burgesses, who must be Parliamentary electors of the burgh, one-third of whom go out every year by rotation, and the election of their successors takes place on the first Tuesday of November by the votes of the Parliamentary electors registered on premises situated within the royalty. The poll opens at eight, A.M., and closes at four, P.M., at which hour the candidates having the greatest number of votes are declared elected. Should any party so elected decline accepting the office, another poll to supply the vacancy, takes place within three days thereafter. The Magistrates, consisting of a Provost, four Bailies, and Dean of Guild, hold office for three years, and are elected along with the other office-bearers, not sooner than two or later than three days after the Council is complete. The Council holds stated meetings in the Council-room on the last Monday of every month, and special meetings as circumstances require.

BURGESS AND GUILD BRETHREN.

By the Act 9th Vict., cap 17, passed on 14th May, 1846, all exclusive privileges of burghs and trades's incorporations were abolished; but no party is eligible to be elected a member of the Town Council except Burgesses, and the dues were in 1849 reduced from £20 to £4 each, being £2 for Burgess, and £2 for Guild dues.

CHARITIES UNDER THE MANAGEMENT OF THE
PROVOST, MAGISTRATES & TOWN COUNCIL.

1. MAISONDIEU ENDOWMENT.

After the Reformation, the Preceptory of Maisondieu having fallen to the Crown, James the Sixth of Scotland and First of England, by Royal Charter of Confirmation, dated the last day of February, 1620, granted to the Provost, Bailies, Councillors, and community of Elgin, and their successors, the Hospice or House of Preceptory of Maisondieu, lying adjacent to the said burgh, founded for the aliment and support of certain poor and needy persons, with the right of patronage to the same; together with all lands, tenements, rents, &c., &c., belonging thereto, and of which the preceptor and bieldmen thereof were in possession at any former period; together with the town and lands of Over and Nether Manbeen and Haugh of Manbeen, the lands of Over and Nether Kirdels, the lands of Over and Nether Pittensear, for the support of certain poor and needy persons, according to the original establishment thereof; and also to maintain and support a teacher of music, properly qualified, to instruct the youth within said burgh in music and other liberal arts, and also to answer and promote the affairs of the said burgh, because the common revenue was barely sufficient for its own purposes. The lands of Maisondieu were accordingly appropriated by the magistrates for the purposes designed by the charter. No evidence can be found that those of Manbeen, Kirdels, and Pittensair had ever been in their actual possession; but the charter gives right to the casualties of these lands payable at the time to the hospital of Maisondieu, the *Dominium utile* being in the

hands of lay proprietors. The lands of Maisondieu contained 29 acres, 2 roods, and 6 falls. The present rent of the land is £68, 10s. besides £42, 17s. 6d., of a feu-rent, being, in all, £111, 7s. 6d. sterling.

A bieldhouse was erected at the east end of the burgh in 1624, to contain four poor persons, with a piece of garden ground attached. This building having become ruinous, a new bieldhouse was erected by the Magistrates and Council in 1846. Each bieldman, besides the accommodation of house and garden, receives £8 per annum.

The present incumbents are—Alexander M'Iver, shoemaker; Alexander Christie; John Anderson, wright; and Alexander Sutherland, nailer.

2. AUCHRAY'S OR PITTULIE'S MORTIFICATION.

The charity under this title was instituted by Wm. Cummine of Auchray and Pittulie, who, by deed of mortification, dated the 12th October 1693, bequeathed a sum of money to be laid out in the purchase of lands, the rents of which were to be applied for the maintenance of four poor old decayed or broken merchants, being residents within the burgh, and burgesses thereof. With part of the amount the "Leper" lands had been purchased previous to the date of the deed of mortification, and since that time the four crofts called the "hospital crofts," and a rood of burgh land, have been purchased for the purposes of the charity. The balance, £2022, 17s. 9d. Scots, or £168, 15s. sterling, lies in the hands of the Town Council, for which interest at 5 per cent. is paid yearly into the funds of the charity. The lands are in the possession and under the management of the magistrates, and the

Present rental is -	-	-	-	£62	12	0
---------------------	---	---	---	-----	----	---

Interest of £168. 15s. in town's hands	8	8	9
--	---	---	---

£71 0 9

This sum, after deducting local taxes and other burdens, is divided equally among the four decayed merchants presented to the charity. The presentation is vested in the donor's heirs and successors jointly with the magistrates of Elgin, who alternately have the right of nomination.

The present incumbents are—James Callum, carpenter, appointed in 1838; Wm. Russell, merchant, appointed in 1845; John Forsythe, appointed in 1848, and John Shepherd, appointed in 1849. Allowance to each last year, £16.

The right of patronage was last exercised by the magistrates, and Mr Cummine of Auchray, has, therefore the right of presentation on next vacancy occurring.

3. DARKLAND'S MORTIFICATIONS.

On the 6th December, 1698, John Innes of Darkland bequeathed the sum of £1000 Scots (£83, 6s. 8d. sterling) the interest of which to be divided among the poor of the burgh of Elgin and the parishes of Lhanbryd and Birnie, in the following proportions:—

	Scots.			Sterling.		
To the poor of Elgin - -	£666	13	4	£55	11	1 $\frac{1}{4}$
To the parish of Lhanbryd	133	6	8	11	2	2 $\frac{3}{4}$
To the parish of Birnie -	133	6	8	11	2	2 $\frac{3}{4}$
The balance of - - -	66	13	4	5	11	1 $\frac{1}{4}$
To be divided on the burial day of William Innes.						
	£1000			£83 6 8		

The patrons are the Magistrates of Elgin for their own share and for the two parishes, the Kirk-sessions of Lhanbryd and Birnie, and the Lairds of Coxton and Dunkinty or their heirs.

2. On the 20th November, 1707, Mr Innes also bequeathed the sum of £1100 Scots, with which he purchased, from Robert M'Kain, merchant in Elgin, the lands called the "Shooting Acres" and appointed the free rent thereof to be divided yearly among the poor of the undermentioned parishes, in proportion to the following sums:—

	Scots.			Sterling.		
Town and parish of Elgin.....	£666	13	4	£55	11	1 $\frac{1}{4}$
Parish of Lhanbryd	266	13	4	22	4	5 $\frac{1}{4}$
Parish of St Andrews } (united)	133	6	8	11	2	2 $\frac{3}{4}$
Parish of Birnie.....	133	6	8	11	2	2 $\frac{3}{4}$
Parish of Urquhart.....	133	6	8	11	2	2 $\frac{3}{4}$
	£1333			£111 2 2 $\frac{3}{4}$		

The Shooting Acres are in the possession and under the management of the Magistrates and Town Council. The first distribution took place with crop 1709, when the rent was only £90 Scots, or £7, 10s sterling. The present rent is £28 sterling, which, after deducting the public burdens, is annually divided according to the above proportions. The patrons are the Magistrates and Ministers of Elgin and the Lairds of Coxton, Dunkinty, and Leuchars, and their successors.

3. Mr Innes, on the 6th April, 1713, bequeathed the sum of 1000 merks Scots to the poor of the town and parish of Elgin, and parish of Lhanbryd, to be divided as follows:—

	Scots.			Sterling.		
To the town and parish of Elgin	£466	13	4	£38	17	9
To the parish of Lhanbryd	200	0	0	16	13	4½
	£666	13	4	£55	11	1½

The patrons are the Magistrates and Ministers of Elgin, the Minister of Lhanbryd, and the Lairds of Innes, Dunkinty, Leuchars, and Bishopmill

4. John Innes of Dunkinty, by deed of settlement, recorded at Edinburgh on the 28th May, 1781, bequeathed the sum of £100 sterling to the Magistrates and Ministers of Elgin, for the benefit of the poor, and the sum of £160 sterling for the Episcopal chapel. Both the legacies lay in the hands of the donor's nephew, John Innes of Leuchars, and the amount recovered in 1830 from his estate was £112, 10s. 2d. sterling, which was apportioned as under, after deducting expenses:—

To the Episcopal chapel,.....£62 15 2

To the poor of Elgin,.....39 4 5

The former sum now lies in the hands of the trustees of the chapel, and the latter (being now £42) is lodged in the Savings' Bank.

4. DICK'S MORTIFICATION.

On the 21st December, 1719, Alexander Dick, glover in Elgin, mortified the sum of 1000 merks Scots (£55, 11s. 1½d. sterling) to the poor of the town, which lies in the town's hands. The interest, £2, 15s. 6¾d., is annually divided among the poor at Christmas.

5. GORDON'S MORTIFICATION.

Bailie Charles Gordon, Elgin, on the 22d October, 1733, bequeathed the sum of £200 Scots (£16, 13s. 4d. sterling) to the poor of the town. The money also lies in the town's hands, and the interest, (16s. 8d. sterling) is annually divided among the poor at Christmas

6. CRAMOND'S MORTIFICATION.

Bailie Cramond, merchant, Elgin, of date the 9th February 1737, bequeathed the sum of 500 merks Scots (£27, 15s. 6¾d. sterling) to the poor of the town. The money also lies in the hands of the town, and the interest, £1, 7s. 9½d. is annually divided among the poor at Christmas, along with the other mortifications.

EDUCATIONAL BEQUESTS.

MAISONDIEU ENDOWMENT.

The particulars of this royal grant we have already given in pp. 157 and 158, to which we refer our readers.

LESLIE AND BRANDER'S BEQUESTS.

The above bequests were both made to the Grammar School, as noticed in the minutes of the Town Council. On the 24th May, 1794, there is a state of accounts entered, showing that a sum of £420 sterling had been left to the seminary by James Leslie of Jamaica, which had been duly recovered with interest, by Mr Ross of Main; and on the 1st February, 1796, we find it stated that a sum of £50 sterling bequeathed by Mr Brander of London, had also been received.

PETRIE'S MORTIFICATION.

James Petrie, merchant in Elgin, by deed of mortification, dated 12th June, 1777, disposed to the Kirk-session of Elgin two aughteen parts of the Greshop lands of Elgin, the rent of which to be applied towards defraying the expense of the education of six poor orphans, or children within the parish of Elgin, whose parents cannot afford to pay their school fees, for teaching them to read and write, or any other branches the Kirk-session might judge necessary, under the following conditions:—The children to be of the age of eight or nine years, and to enjoy the benefit for three years; the school fees to be paid for each to be 1s. per quarter; the children to be of parents living within the parish, who have been exemplary as good Christians, and those of the names of Petrie or Murdoch to be preferred. The donor bequeathed the free balance of the rents, to be expended in the maintenance in bed, board, and washing, and clothes of the children, the Kirk-session having a discretionary power to take in girls as well as boys, and to apply the money destined for their education towards instructing them in any branch of industry.—The lands are let at a rent of £33, 10s.

DICK'S MORTIFICATION.

John Dick of Hart Street, Covent Garden, London, by a codicil to his last will, dated 12th March, 1786, bequeathed the sum of £120 sterling "to the Magistrates and Provost of Elgin for the time being, to be placed out at interest from time to time, to be paid by them and their successors for ever, to the Teacher of the Free Grammar School of Elgin for the time being, in augmentation of his salary." The Classical Master receives the benefit of this mortification by an addition to his salary of £5 more than those of the other Masters.

DUNCAN'S MORTIFICATION.

John Duncan, Bishopmill, by his will, dated 15th Oct., 1822, bequeathed to "the Magistrates of the Burgh of Elgin,

and to the Minister and Kirk-session of the parish of Alves, in the county of Elgin for the time being, the sum of £25 sterling each, in trust, to be laid out by them at interest, and the interest to be applied by the said Magistrates of Elgin and Kirk-session of Alves in defraying the expense of educating a poor boy at each of the parish schools of Alves, and Elgin, to be named by them respectively, for four years, in the common branches of education deemed by them most proper for him to learn, such as reading, writing and accounts." The amount effeiring to Elgin, under deduction of £2, 10s. of legacy duty, is in the hands of the town, and the interest, £1, 2s. 6d., is annually paid for the purpose of the charity. THE MACANDREW BEQUEST.

The late James Macandrew, Elgin, by his will, dated the 6th September, 1822, bequeathed the sum of £200 sterling for the benefit of the Grammar or Latin School of Elgin, the principal to be sunk for ever, and the interest to be applied for books and otherwise, as premiums to three boys at the annual public examination of the school who shall give the most approved specimen of their yearly progress." The bequest to be administered by the Grammar School Master, the two established Ministers, and the Provost.

DR ALLAN'S BEQUEST.

The late John Allan, M.D., H.E.I.C.S, a native of Elgin, by his will, dated 30th April, 1833, bequeathed to the Chief Magistrate of Elgin and the several Teachers of the Academy, in succession, as Trustees, the sum of £400 sterling, to be lent out on heritable security, for the purpose of establishing, from the annual proceeds, three annual prizes in the Academy, to be payable on the 30th December yearly, being the anniversary of his birthday, equally among three pupils, one in each of the Latin, Mathematical, and English classes, who shall be found at the annual examination best to merit a prize on account of proficiency in their respective studies. No pupil to receive the prize two years for one branch, and a preference to be given to pupils of the name of "Allan." The prize to be called "Allan's Reward of Merit;" and a regular record of prize holders to be kept, and their names advertised. The bequest came into operation in December, 1837, when the sum of £16 sterling, being the annual interest, was divided into three prizes

OLD MAIDS' CHARITY.

Dr Gray also bequeathed the annual interest of £3000 for the use of reputed old maids in the town, daughters of respectable but decayed families, the amount to be placed in the British Funds, and the annual interest to be distributed by the two parish clergymen and physicians to the proper objects. There are at present 15 annuitants who receive from £6 to £11 each per annum.

PAUPER LUNATIC ASYLUM.

Established in 1834, and built by a voluntary assessment of £850 on the landowners of the county. The buildings have since been considerably enlarged, and there are at present 20 males and 18 females in the asylum. The establishment is conducted in connection with Gray's Hospital, and is supported by the interest of £1200, subscribed for the purpose, and a board of £12 per annum, paid for each patient by the parishes who send them—in addition to which a bequest of £50 has been left to it by the late Miss Cuming of Blackhills, and one of £150 by the late Wm. Innes, Esq., Elgin. The institution is chiefly managed by the Trustees of Gray's Hospital.

Medical Attendants—John Paul, M.D., James Ross, surgeon, and J. H. Robertson, M.D., house surgeon. *Male and Female Keepers*—Mr and Mrs M'Lennan, who have £36 per annum, with bed, board, &c.

THE GUILDRY FUND SOCIETY INCORPORATION.

Established in 1714, for the maintenance of decayed guild brethren, their widows and children. The annual dues is 2s. each, and the entry-money has been raised at various times from £1 to the amount at present exacted, £50 sterling. Present number of members, 30. The present rental is £412 sterling, which, after deducting public bur-

dens, expense of management, and a small sinking fund, is divided among the annuitants, who are paid quarterly, on the first Monday of February, May, August and November. No person can be admitted a member unless he is a merchant burgess and guild brother, and under forty years of age, except member's sons. The eldest son of a member is admitted free on coming of age, and the second and younger sons on the payment of £10 sterling. The annual meeting takes place on the first Saturday of October, when the office-bearers are elected, applications for the benefit of, and admission to, the fund are discussed, and all other business transacted. *Managers*—Jas. MORTIFICATIONS MANAGED BY GUILDRY FUND.

1. BRACO'S MORTIFICATION.

This mortification was made by the Right Hon. William Lord Braco, only lawful son and heir of William Duff of Dipple and grandfather of the present Earl of Fife. By disposition of date the 17th April, 1729, Lord Braco disposed to and in favour of the Provost, Magistrates, and Dean of Guild, and Treasurer of the burgh for the time being, "all and haill thirteen crofts of land, lying contiguous together on the south side of the burgh of Elgin, betwixt the crofts of land called St Catherine's Croft at the west, and one croft of land belonging to Kenneth M'Kenzie, apothecary, at the east, with the taills of land thereto belonging, bounded" &c. The mortification is for the maintenance of "ane honest poor and decayed merchant burgess and guild brother, resident within the town of Elgin;" and it is specially provided that the person presented "be a man of honest life and conversation, and a Protestant, who frequents the ordinances and public worship." His Lordship reserved the right of presentation to himself during his lifetime, and afterwards to be exercised by his heirs or any person whom he might appoint; and in the event of their not presenting a qualified person within six months after a vacancy, the right *jure devoluto* fell to the Dean of Guild and managers of the Guildry Fund for the time being, to whom was also committed the management of the mortification. The present rental is £24, 13s. 2d., and the incumbent, David Christie, shoemaker, presented 21st Nov., 1828.

2. BAILIE LAING'S MORTIFICATION.

On the 3d May, 1775, John Laing, Over Manbeen, and sometime one of the magistrates of Elgin, disposed in favour of the Provost, Bailies, Treasurer, and Dean of Guild, a park of land, commonly called "Laing's Cat tails," lying in the wards of Elgin, the rents of which to be applied for the maintenance of "ane decayed merchant Burgess and Guild brother." The management is vested in the Managers and Treasurer of the Guildry Fund. The patronage is exercised by the Magistrates and Town Council. The rent is £7, 7s besides public burdens; and the incumbent Wm. Russell, merchant, appointed in 1832.

3. HUTCHISON'S BEQUEST.

Alexander Hutchison, sometime merchant in Edinburgh, by his will, dated the 26th August, 1820, bequeathed the sum of £1000 sterling to the Guildry Fund, under the burden of two annuities of £30 and £20 per annum

THE CATHEDRAL.

The foundation stone of the Elgin Cathedral was laid by Bishop Andrew Moray, on the 19th July, 1224, who, it is

supposed, finished the building. In 1390, it was burned by "The Wolf of Badenoch:" but its re-building was soon thereafter begun by Bishop Bar, and continued by his successors till wholly completed. The Cathedral remained entire till about the year 1506, when the great steeple fell, but it was again re-built in 1538, and was 198 feet in height. By an act of Privy Council, dated at Edinburgh. 1567-8, the lead was directed to be taken off the roof, and sold for the purpose of providing for the maintenance of soldiers during the rebellion, which was accordingly done, and shipped at Aberdeen; but the vessel sunk near the harbour. The building being thus unroofed soon began to decay; and in 1711, on a Peace Sunday morning, the great tower fell. The ruin is now carefully preserved by the Commissioners of Woods and Forests, and a new and substantial wall has been erected around the grounds. The churchyard of the burgh and parish being within and around the Cathedral walls, the inhabitants have free access to it, and strangers are admitted on payment of a gratuity to the keeper. *Gate-keeper*—John Taylor, weaver.

PART VI.

BURGH OF FORRES.

The town of Forres appears to be of very ancient origin. During the 9th and 10th centuries it was a place of considerable note, having been frequently the temporary residence of the reigning Kings of Scotland; some of whom lost their lives there. The original charter having been burned in time of war, no distinct date of the royalty can be given; but a new charter was granted by James IV. in 1496

The Arms of the burgh consist of the Patron Saint, St Lawrence, in a long habit, standing on a brander; a Chaplet round his head; at his right side a Crescent, and at the left a Star of six points; holding in his right hand a book, with the motto, "Jehovah tu mihi Deus, quid deest,"—Jehovah is my God, what is wanting.

Population, 1851—Males, 1455; Females, 2019. Total, 3474.

MORTIFICATIONS AND BEQUESTS.

1. DICK'S BEQUEST.

1. James Dick, sometime merchant in London, a native of Forres, by deed of mortification of date the 23d August 1810, bequeathed the sum of £500 sterling, for behoof of decayed burgesses, and poor inhabitants of the town. The donor set the charity in operation in his own lifetime. The minister of the parish and the two eldest bailies were appointed Trustees. The funds are in the town's hands, and the interest is divided annually in September.

2. Mr Dick also bequeathed the sum of £1500, the interest of which to be applied for the purpose of providing coals for the poor of Forres, to be divided by the minister of the town. The amount is principally invested in the Government Funds, and partly in private hands; and the

interest is duly applied in the purchase of coals, for the poor.

*** The above-mentioned donor is the same benevolent and patriotic individual, who has contributed so liberally to increase the comfort and remuneration of the parochial schoolmasters of the counties of Aberdeen, Banff, and Moray.

2. NICHOLSON'S BEQUEST.

John Nicholson, sometime writer in Edinburgh, a native of Forres, by his will dated the 2d September, 1651, bequeathed the sum of 2000 merks Scots (£111, 1s. 8d. stg.,) to the provost and magistrates, "to be consolidated, and remain as an patrimonial to the poor, indigent, and decayed brethren, and members of Jesus Christ, in the said burgh of Forres, and the annual rent thereof to be applied and bestowed for the help and supply of the poor." A piece of land was obtained for the purposes of this charity.

3. TAYLOR'S MORTIFICATION.

Robert Taylor, of Starrwells, by his will, dated 18th Oct., 1710, mortified the sum of 4000 merks Scots (£222, 3s. 4d. stg.), to the magistrates, for the following purposes:—"The annual rent of 2000 merks for the subsistence of the master of the music school of Forres, who can both play and sing; and the annual rent of the other 2000 merks to be applied for the use of the poor, specially poor families within the burgh of Forres, at four terms in the year, viz.:—Christmas, Easter, Ascension, and Pentecost; and for the security of the same he disposed the lands called Orchyard, Katherine's Yard, and the brae of Thornhill. The yearly rent arising from the two preceding mortifications amounts to about £30 stg.

4. ANDERSON'S BEQUEST.

Jonathan Anderson, sometime of Sweethope, thereafter of Rochsoles, by his disposition and deed of settlement, dated the 29th August, 1814, disposed to the magistrates and town council of Forres, the lands of Cowlairs or Sighthill, near Glasgow, the income from which to be applied for the following purposes:—"In the first place to pay therefrom the price or expense of a piece of ground in a convenient situation, for the purpose of erecting a school-house thereon, and in defraying the expense of building the said school-house and keeping the same in repair; also in paying a salary to a schoolmaster, for educating the children of necessitous parents and orphans, inhabitants of the parishes of Forres, Rafford, and Kinloss, in reading, English, writing, arithmetic, and such other branches of education as the said Provost, Magistrates, and Town Council shall judge proper;

the extent of which salary to be not less than £40, nor more than £70. The master to be appointed by the magistrates and council, and the institution to be to all intents and purposes a free charity school, and denominated "Anderson's Institution." In the second place, he appointed the balance of the feu-duty to be divided annually among poor house-keepers in Forres, in such manner as the magistrates and council should judge proper; but not to exceed £5 yearly to any individual. Some years ago the property was sold to the Sighthill Cemetery Co., for an annual payment of £200.

5. FRASER'S BEQUEST.

The late Peter Fraser, of St John, New Brunswick, a native of Forres, by his last will, left the sum of £1200 currency, besides a residuary legacy, for advancing education in his native town. The bequest has not yet been realised, but every exertion will be made to obtain it.

6. COLONEL SIMON FRASER'S BEQUEST.

Lieut.-Colonel Simon Fraser of Drumduan, by Deed of Settlement, of date the 7th July, 1845, bequeathed the sum of £2000, sterling, to the Minister and Kirk-Session of Forres, three-fourths of the annual interest of which to be distributed by them among the aged, infirm and industrious poor and decayed householders of the town and parish not on the parochial roll, expressly excluding such as may be given to intoxication, or who have been brought to poverty through it or any other vice; out of which £10 to be given as a salary to a female teacher of an industrial school under the management of the said minister and kirk-session. The remaining one-fourth of the interest the donor directed to be applied for behoof of the Female Society of Forres during the lifetime of the President, Miss Grant, and thereafter to revert to the minister and kirk-session, to be divided among the parties above described.

7. LIEUTENANT JAMES DUNBAR'S BEQUEST.

The interest of £175 to be divided amongst the Poor of the Parish of Forres, that is, to any of the name of Dunbar, of that description, as they may have occasion for it—the principal sum to remain mortified for the benefit of any one or more of the name to be laid out at the sight of the eldest presiding magistrate, minister of the parish of Forres, and one of the elders.

THE SCOTTISH EQUITABLE LIFE ASSURANCE SOCIETY,

Incorporated by Special Act of Parliament.

*Is an Institution peculiarly adapted to afford
provisions for families.*

IT is a PURELY MUTUAL ASSURANCE SOCIETY. The
WHOLE PROFITS are allocated every THREE YEARS
amongst Policies of more than five years' duration. No
part is, as in the case of a Proprietary Company, diverted
from those who are Assured and paid away to Shareholders.

The additions which have already been made to Policies afford the clearest evidence of the prosperity of the Institution, and the great advantages derived by its Members.

Since the Society was instituted in 1831 the additions to Policies have been at the rate of Two Pounds per cent. per annum, not only on the sums Assured, but also on all the additions accumulated from time to time, so that the Bonus of Two Pounds per cent., declared at 1st March 1850, was equal to about Two Pounds FOURTEEN SHILLINGS PER CENT. per annum, on the sums originally assured by the earlier Policies.

The total additions to Policies made at and preceding 1st March, 1850, amounted to FOUR HUNDRED AND FIFTY THOUSAND SIX HUNDRED AND SIXTY-FIVE POUNDS.

EFFECT OF ADDITIONS

ON A POLICY FOR £1000, DATED 1ST MARCH, 1832.

£1486, 7s. 8d. will be payable if it become a claim during the current year, after payment of this year's Premium. This is an addition of nearly FORTY-NINE per cent. on the SUM ASSURED. Supposing such a Policy to have been effected at the age of 30, the additions, if now applied in reduction of the future Premium, would reduce the Premium from £25, 10s. 10d. to £8, 15s. 8d., being SEVENTEEN SHILLINGS and SIXPENCE, or Seven-eighths of a Pound per cent. only, on the sum assured; and even this small payment must be reduced every THREE YEARS during the subsistence of the Policy, and may not only *ultimately* be *extinguished*, but leave further additions to be afterwards made to the Policy.

The additions or Bonuses may, in the option of the Assured. be applied thus:—

1. They may be added to the sum payable at death;
2. They may be commuted into a present payment: or,
3. They may be applied in reduction of the future Premiums.

Amount Assured,.....£3,600,000.

Annual Revenue,..... 130,000.

Accumulated Fund,..... 636,000.

AGENT FOR ELGIN,

JAMES MELLIS, WRITER.

TO BE PUBLISHED BY SUBSCRIPTION,

AT 6s. PER COPY,

A NEW PLAN OF THE BURGH OF ELGIN,

By T. S. HUTCHON, Surveyor, Elgin.

IN consequence of the time that has elapsed since the last Plan of the Burgh was made, (now 13 Years past), the extension of the Town by the formation and building up of New Streets, the erection of numerous Public and Private Buildings, and the alteration and changes in the Ownership of Properties during that period—having altogether rendered a New Plan most desirable,—it is intended, provided a sufficient number of Subscribers can be obtained, to publish a Plan from a New Survey made by T. S. HUTCHON, for that purpose.

It will be well got up, Lithographed in the best manner, and on the same scale as the present one, and charged at the reduced price of Six Shillings per Copy, plain; 7s. 6d., coloured; and 10s. 6d. do., varnished on cloth with rollers.

IT WILL CONTAIN ALL ALTERATIONS MADE OR SETTLED UPON UP TO THE TIME OF PUBLICATION, AND WILL SHEW THE TERMINUS, AND A PART OF THE ELGIN AND LOSSIE-MOUTH RAILWAY, NOW IN PROGRESS.

 By desire, also the Boundary and Extent of the Old Royalty, will be ascertained, and shewn, in order to prevent those disputes and uncertainties which often arise.

Maps taken of Estates, and Surveys made on moderate terms.

** Apply to T. S. HUTCHON, Civil Engineer and Surveyor, Elgin.

22d December, 1851.

TO THE NOBILITY, GENTRY, AND INHABITANTS
 OF ELGIN,

I HAVE much pleasure in offering you my best thanks for the liberal Patronage you have been pleased to accord me since I commenced Business in this Town. I embrace the present opportunity to state that no effort on my part shall be wanting to secure a further continuance of your esteemed favours ; at the same time, assuring you of the absolute purity of all Medicines which I dispense, — of the greatest care and accuracy in every prescription entrusted to me, of which, I trust, that a Three-Years experience as principal assistant in this department, in the first house in Scotland, will be considered a sufficient guarantee.

I am, Your obedient servant,
 WM. ROBERTSON.

THE NEXT SEPTENNIAL INVESTIGATION
 TAKES PLACE AT 31st DECEMBER 1852.
 POLICIES OPENED WITH THE SOCIETY
 PREVIOUS TO 31st DECEMBER NEXT
 (1851), HAVE THE ADVANTAGE OF A
 FULL YEAR'S STANDING OVER THOSE
 DELAYED BEYOND THAT DATE, AND
 WILL BE ENTITLED TO RANK FOR TWO
 YEARS' ADDITIONS AT THE INVESTI-
 GATION.

The following Tabular View of one or two cases,
 taken at random from the Books, shews the effect
 of Additions declared at previous investigations :—

Date of Insurance.	Amount Assured.	Date of Death.	Amount paid under the Policy, including Bonus Additions.
1815	£800 0 0	1851	£1621 4 11

THIS COMPANY has been in active operation since 25th December, 1845, and the success which has attended it exceeds the most sanguine expectations of its numerous Shareholders.

The Establishment is, strictly speaking, a MUTUAL

INSURANCE COMPANY,—the Insured having an opportunity of becoming Shareholders, which entitles them to participate in the Whole Profits realized, less the expense of management.

FIRE DEPARTMENT.

The Rates of Charge for Insurance against Loss by Fire are the same as other respectable Establishments of the same kind, viz. :—

Common Risks, at the Annual Premium of 1s. 6d to 2s.

Hazardous, 2s. 6d.

Doubly Hazardous, 4s. 6d. to 5s.

Extraordinary Risks may be Insured by Special Agreement.

No Charge made for Transfer of Policies.

LIFE DEPARTMENT.

Annual Payment for Insuring £100, payable at the Death of the Insured.

LIFE ASSURANCE.

THE RATES of this COMPANL ARE GENERALLY LOWER THAN THOSE OF ANY OTHER OFFICE IN SCOTLAND WHICH HAS GIVEN A BONUS TO THE ASSURED. For the same Premium which a person aged 20 would have to pay to the Chief Mutual Offices for an Assurance of £1000, *he may obtain a Policy from the NATIONAL for £1288, 17s.;— or one for £1177, 14s., with a Right to Share in the Profits.*

At the INVESTIGATION of the Company's Life business, made at 15th May 1851, a LARGE SURPLUS WAS FOUND TO HAVE ARISEN, after discharging all past claims and expenses of every description. Out of the Profits realised, a VESTED BONUS ADDITION was made to *every existing Policy* on the Participation Scheme, varying from *one to eight* per cent. on the Sums Assured, and exceeding, in some cases, 64 per cent. of the Premiums paid. The following Table exhibits the additions made to some of the Policies :—

<i>date of Policy.</i>	<i>Original Sum Assured.</i>	<i>Bonus Added.</i>
2d June 1843,	£4999 19 0	£400
30th Nov. „	2999 19 0	240
12th April 1844,	499 19 0	40
19th May 1848,	4999 19 0	200

Any Bonus may be converted into a *present Cash Payment*. A liberal value will be given.

An INVESTIGATION and DIVISION of PROFITS will take place ANNUALLY in future, and *every Participating Policy* in existence at 15th May in each year, *will share in the Division.*

On application, Policies may be admitted to very important privileges, whereby, after the lapse of a certain period, they shall be *absolutely indefeasible, and not liable to extra premiums for residence in any part of the world.*

Attention is specially directed to the Company's NON-PARTICIPATION SCHEME, by which fixed sums without additions may be secured at very moderate rates.

FIRE INSURANCE.

FIRE INSURANCES on the usual moderate terms. *Prompt settlement of Losses.* Policies may be transferred from other Offices without expense.

A Report of the Recent Investigation and Division of Profits may be had on application.

LIFE ASSURANCE.

THE AMOUNT OF ANNUAL EXPENDITURE required by most Offices for a Life Assurance deters many from adopting that mode of providing for those dependent on them. They would more readily make such a provision, could it be shewn that an Assurance may be effected on such a system as to require, *after a few years*,—when, in all probability, their other expenses will be increased,—the payment of a comparatively small sum, scarcely more than *one-half* of the amount usually necessary.

The Life Association of Scotland.

(*Founded 1839 and Incorporated by Royal Charter*) secures this desirable result by the mode in which its *Surplus Funds* are divided.

ON THE 5TH APRIL, *in every year*, the precise state of the affairs is ascertained by a detailed valuation. The divisible Surplus is then apportioned to all Policyholders of five years' standing, and the share of each is handed to him *in cash* when he pays his current year's Premium. By this system the Assured enjoy *during their own lives* the Surplus or Profits, and the Premiums are reduced to a comparatively small amount.

Examples of the Premiums, payable in the present year by Policy-holders of five years' standing:

Age at Entry.	Policies of £100.	Policies of £500.	Policies of £1000.	Policies of £5000.
20.	£1 4 0	£6 0 0	£12 0 0	£60 0 0
30	1 11 7	7 17 11	15 15 10	78 19 2
40	2 2 4	10 11 8	21 3 4	105 16 8

During last year (the 12th of the Society), 879 new Policies were issued for Life Assurances, amounting to £330,000.

LIFE ASSURANCE NOTICE.

BONUS YEAR.

ON THE 31ST DECEMBER NEXT, THE BOOKS CLOSE FOR THE FOURTH SEPTENNIAL BALANCE AND DIVISION OF PROFITS; POLICIES EFFECTED ON THE PARTICIPATING SCALE BEFORE THAT DATE WILL SHARE IN THE BONUS TO BE THEN DECLARED.

The Profits are divided on the Insurance principles whereby every Insurer obtains his full and fair share, at whatever age he insures, and to whatever age he may attain.

The Premiums are moderately rated at all ages, and may be so modified as to suit the objects and convenience of parties.

Bonuses may be either added to the Sum Insured, or applied in reduction of future Premiums, or commuted for a payment in cash

Tables of Rates, and every other information, may be had at the Head Office, or from the Company's Agents in the country.

JOSEPH ANDERSON,

Inventor of the INVISIBLE DOG-CART (now so much in use), and Patentee of the VICTORIA CAR, which attracted so much Notice in the Great Exhibition, Hyde Park, London, and for which he has been honoured with Orders from all parts of Europe,

BEGS most respectfully to return his sincere thanks to the Nobility, Gentry, and Inhabitants of Morayshire, Scotland, and adjacent Kingdoms, for the liberal manner they have supported him for the last four years. He trusts it will ever be his study to merit a continuance of that support which the Public has hitherto conferred on him.

J. A. has lately introduced to his Establishment GIG and CARRIAGE HARNESS-MAKING, which can be got to any extent, for the Home trade and for Exportation.

 Second-hand Vehicles of every description bought and exchanged. Everything in the Trade, viz., Gig Lamps, Gig and Cart Whips, Chamoy Skins, Sponges, Mats, Braces; Jamieson's Harness Paste; King's American Fluid, for softening Phaeton Hoods, Gig Aprons, and healing Thrushes and Bruises in Horses and Cattle Hoofs, &c., &c., very highly recommended.

N.B.—In a short time will be added a HORSE-SHOEING and JOBBING BLACKSMITH'S SHOP, under the superintendence of a first-rate Workman.
