LAMMAS

Lammas, or Lughnassad, occurs in late July and early August. It marks the middle of Summer and the beginning of the harvest. It is the first of three harvest festivals and is usually associated with ripening grain. It heralds the coming of Autumn. The Goddess manifests as Demeter, Ceres, Corn Mother, and other agricultural Goddesses. The God manifests as Lugh, John Barleycorn, and vegetation Gods. Colors are Golden Yellow, Orange, Green, and Light Brown. It is a festival of plenty and prosperity.

Have a magical picnic and break bread with friends. Do a meditation in which you visualize yourself completing a project you have already begun. Make a corn dolly charm out of the first grain you harvest or acquire. Bake a sacred loaf bread and give a portion of it to Mother Earth with a prayer of appreciation. Make prayers for a good harvest season. Do prosperity magic. Harvest herbs in a sacred way for use in charms and rituals. Kindle a Lammas fire with sacred wood and dried herbs. If you live in or near a farming region, attend a public harvest festival, such as a corn or apple festival.

The Clan Gregor Society instituted in 1822 is one of the oldest clan societies. Today the Society is a growing organization with membership throughout the world. Its most active objectives are to extend the links of kinship and friendship between MacGregors wherever they may be and to provide a focal point for all members of the Clan and, indeed, any interested visitors who wish to *learn* more of our past. The Society promotes and encourages research into Clan Gregor and the publication or information pertaining to its history, tradition, and genealogy. The Society extends, a warm welcome to persons bearing names included in list A and to those with maternal descent from an eligible person. Persons bearing names or descent from names in Lists B and C who can show evidence of descent or a family tradition or MacGregor connection are also eligible for membership. Names in list D are properly the domain of other Clan and Family societies, however we would welcome enquiries from persons bearing these names who can show their descent from a MacGregor who adopted the name as an alias.

NAMES AND SEPTS OF CLAN GREGOR

As recognized by the Clan Gregor Society, August 1999

Many variant spellings exist and are recognized. M', Mc and Mac are considered interchangeable.

From the Desk of the Chapter President:

Dear Gregor Cousins,

Foremost on mind at present is the sad news that Doyle Long recently had a brain hemorrhage that caused a stroke. I don't have many details as his wife Carlyne is understandably pre-occupied, and I haven't been able to reach her by phone or e-mail. I was advised that after being in a clinic in Santa Barbara, he was due to be moved to rehab, so I hope this is a good sign. He is such a fine gentleman, and my prayers and best wishes go out to him and his family members, and I hope all our Clan members will be joining me in this. Since my last President's message, the only Games I have attended were the Sacramento Valley Games in Woodland. As usual, a very enjoyable event, with great weather, and quite a lot of our Gregor family in attendance, including some from out of state, although only Patricia and myself, and our faithful tent coordinator Chris Sykes were there on Sunday as well as Saturday. In conjunction with these Games we held a Council meeting on Saturday after the Games concluded at 5.00pm, with the Chief of the Caledonian Club of Sacramento kindly arranging for us to use one of the stages, as other areas, including our tent, were "off-limits" for security reasons. I felt the meeting went very well, with lots of things discussed, assignments made, etc. Possibly the highlight of the weekend was the Clan dinner at Ludy's Barbecue in Woodland, starting at 7.00pm that evening. I had reserved for approx 15; the enthusiasm was so good that we ended up with 22 attendees, and we were allocated the banquet room, where we were waited on "hand and foot". This place is usually a "serve yourself" restaurant, but the assistant manager seemed to be so taken with us, and our costumes, and our antics, that they made an exception and gave us personal service, which we certainly enjoyed. Everyone seemed to be in the best of spirits, and we applauded their service frequently, which they seemed to appreciate. Considering the enjoyable time we had, this looks like being an annual occurrence in conjunction with these Games!

I had not been able to attend any other Games since then due to family commitments, but Patricia was able to represent me at the Modesto Games. There were not very many Gregors there, but the few that were made up for the rest of us with their enthusiasm. Clan Gregor was the featured Clan, and we were proudly represented in the parade. One of the highlights of this Games was our member Joy Shropshire once again taking first in her division in the Highland Dancing Competition. This young lady has been competing in this event for only a little over a year, and has excelled in every event she has competed in. She won "Best Overall" in her class at the Woodland Games also, all while maintaining a 4.0 GPA at high school. She and her family are very proud and enthusiastic members of our Clan, and love the opportunity to honor their Gregor heritage, with the dancing, and participating in the parades in their Gregor tartans; a great example to all of us. Joy apparently plans to continue to learn and perform her dancing for many years to come, and we should be proud to have her represent Clan Gregor.

The next Games I am expecting to attend is the Pleasanton event on Labor Weekend; as the largest Scottish Games in the country it is always a spectacle of sight and sound, along with the number and variety of vendors of Scottish and UK wares, souvenirs, regalia, clothing, weapons, books, artwork, and my favorite; food! Also, the afore-mentioned Joy Shropshire will be competing at these Games on the Sun-

day. This event usually draws our largest crowd of Clan Members for a Games during the year; I encourage you to come out and fellowship with your Clan brothers and sisters, proudly represent our Tartan, enjoy the above-mentioned sights and sounds, and of course, support Joy.

I look forward to seeing many of you there.

Regards, Glynn.

Haggis McGregor's Shaggy Dog Tales

Jock & Murphy

Two shipwrecked Scots had been hanging on for hours to an upturned boat. Jock, realizing that he might not be able to hold out much longer, began to recount his past misdeeds, and to vow that if he escaped he would in future lead an entirely new life. Suddenly, there was a cry from his comrade in distress:

" Wait, Jock ! Don't commit yourself - I think I see land !

"Murphy, O'Brien & Casey sitting in a bar discussing the words they would like to hear spoken over their coffins at their wakes. Casey says, "I would like them to say 'He was a wonderful family man- he always supported his wife and kids, and they never wanted for anything'". O' Brien says, "That's lovely Casey. But I would like to hear them say, 'He was a great man in the community - he undertook a lot of projects to make his community a better place.'" Murphy says, "That's very nice, O'Brien. But I would like to hear them say, 'Look! He's moving!'"

Jock's nephew came to him with a problem. "I have my choice of two women," he said, "a beautiful, penniless young girl whom I love dearly, and a rich old widow whom I can't stand."

"Follow your heart; marry the girl you love," Jock counseled.
"Very well, Uncle Jock," said the nephew, "that's sound advice."

"By the way," asked Jock "where does the widow live?"

Press Release June 10, 2007

THE CLAN GREGOR SOCIETY OF SCOTLAND

Comunn Chloinn Ghriogair

Founded 1822 – Charity No. SCO 07391

Patron: Sir Malcolm MacGregor of MacGregor Bart

At the Council meeting held on Friday June 8th 2007, the Clan Gregor Society of Scotland agreed that it will, from this point onwards, accept into full membership of the Society individuals with ANY surname who can show, through DNA testing, that they have a DNA signature which matches, at the accepted degrees of mutational difference, that of the main MacGregor DNA signature.

Council has taken this decision in recognition of the fact that, as a result of Clan Gregor's past turbulent history, individuals were required to assume names which were totally divorced from their actual clan name, and although such name changes were often documented at the time, others were not. The Clan Gregor Society Council recognises that the ancestors of some MacGregors chose not to return to the original clan name for a variety of reasons, and that advances in DNA testing now allows the descendants of such individuals to be identified as belonging to the clan.

In taking this decision the Council is conscious that it is the first Clan Society to promote membership on the basis of a DNA signature and it is to be hoped that other clans will follow this lead.

Details

The Clan Gregor Society will admit to full membership of the Society anyone who can show 23 markers out of 25, or, up to 31 (but normally 33) markers out of 37 in common with the main MacGregor DNA profile which is found as kit number 2124 on the Family Tree DNA public website for the Clan Gregor Project, and additionally, where marker DYS385a normally equals 10 (ten). We take this as the modal signature. For mutations this equates to a genetic distance of up to 6 (six) on 37 markers.

The Clan Gregor Society also recognises that there is a separate Irish based DNA profile for M(a)cGregors which is distinct from the main M(a)cGregor profile, indicating a probable separate origin for the name. Council will therefore also admit to full membership on the basis of this DNA signature, again without relation to surname. The same broad restrictions apply as in the previous paragraph except that for this group the reference kit will be 4715 but with the following alterations: marker DYS464b will be considered as having a modal value of 16 and DYS460 to have a modal value of 11. For the moment the scores on CDY a and b will be discounted in determining the Irish signature and therefore the match which will be considered is up to 30 out of 35 (that is, a maximum genetic distance of 5).

We believe that DNA testing now provides an extremely reliable tool for confirming surname-based descent based on analysis of the Y chromosome.
