The foregoing Register (rectors, priests and students during the Madrid period) is based on the publication of the New Spalding Club, *Records of the Scots Colleges*, (Aberdeen, 1906) and especially on the Madrid and Douai sections.*

* In the administration book covering the period 1633-60 (College archives A/1), the

The many amendments and additions in the present Register, however, are derived mainly from the following sources:

- (a) Philip Flanagan, art. "List of Rectors or Administrators at Scots College, Madrid", *The Innes Review*, IV (1953), pp. 117-118;
- (b) Appendix to *Scotchchronicon*, vol. III;
- (c) Sommervogel and Foley, *opera citata*;
- (d) *Annals of the Scots College from 1546 to 1697* (College archives 54/1; notes in Spanish in the writing of Alexander Cameron II, rector 1810-33);
- (e) scraps of information scattered through the various Account and Administration Books of the Madrid period and now forming part of the College archives.

Many of the biographical data are now unverifiable and their certainty cannot be guaranteed. This applies to some of the material in the foregoing Register, although statements that are improbable have been excluded or marked by signs of interrogation.

contents page (in Hugh Semple's hand) promises "Alumnorum nomina parentes et dies receptionis et studia: f. 241", but all of the folios after f. 194 are missing.

The data for the Madrid section of *Records of the Scots Colleges* were provided in 1905 by Rev. James Humble, then vice-rector of the college. He probably copied from the appendix to G. A. Griffin's manuscript *Historical Notice of the Scottish College at Madrid and Valladolid* (College archives 54/15, but at present in Columba House), the author of which may have had access to the missing folios, which are no doubt the original Madrid register, added to by Hugh Semple's successors.
